Proceedings of the Government of Mysore,

(1) Report on Vaccination in Mysore for the year 1900.

(2) Report on the Vaccine Institute, Bangalore, for the year 1900.

No. 12716—MIS. 1894, DATED BANGALORE, 1ST FEBRUARY 1902.

REVIEW THEREON.—The total number of cases vaccinated during the year 1900 amounted to 53,968 against 24,847 or an increase of 29,121 over the previous year. Though this is a decided improvement over the previous year, yet the Senior Surgeon thinks that it is far from satisfactory, considering that there was practically no plague in several districts. Of the number vaccinated, there were 52,340 cases of primary vaccination against 24,268 in the previous year; out of these, 47,196 or 90·17 per cent were successful against 22,159 or 91·30 per cent in the year 1899. Cases of re-vaccination were 1,628 with 1,091 or 67·00 per cent success against 579 with 279 or 48·19 per cent success in the previous year.

2. The number of deaths from small-pox during the year under report was 4,286 against 3,014 in the previous year, thus showing an increase of 1,272.

3. The cost of the establishment during the year amounted to Rs. 21,010-5-9 against Rs. 20,557-0-8 in 1899; and the average cost of each successful case was Re. 0-7-2·48 against Re. 0-15-1·45 in the previous year.

4. *Vaccine Institute.*—The total quantity of Lanoline vaccine manufactured and issued during the year was enough for 403,845 cases against 329,103 cases in the year previous or an increase of 74,742 cases.

5. Out of the quantity manufactured, enough for 67,445 cases was distributed among the vaccinators and medical subordinates in the Province against 40,589 cases in the previous year; and the remaining vaccine, *i. e.*, enough for 336,400 cases, was supplied to stations outside the Province against 262,064 cases in the year 1899.

6. The total cost of maintaining the Institute was Rs. 10,250-14-1, while the realizations amounted to Rs. 19,409 thus leaving a net profit of Rs. 9,158-1-11 to the State after supplying the needs of the State.

The following letter No. 6886, dated the 13th January 1902, from the Ven'able the Archdeacon of Madras, received through the First Assistant to the Resident in Mysore, with his endorsement No. 348 of the 21st idem :—

With reference to your letter No. 216, dated 11th January 1902, I have the honor to state that in my opinion the request that Native Christians, members of the Church of England, may be buried in the Government cemetery at Harihar, made by the Acting Railway Chaplain, Hubli, in his letter to the Deputy Commissioner, Chitaldrug, dated 27th September 1901, is a reasonable one, and under the circumstances of the case, as stated by him in the above letter, may be granted. It would appear from the Chaplain's letter that the number of Christians, members of the Church of England at Harihar, is very small, and is not likely to increase, and therefore under Government Rules, the question is best arranged by mutual concession, or by special provision made locally by the parties immediately concerned, and if, as I presume is the case, sufficient grave-space is available without encroaching upon the rights of other religious denominations, there is no objection to the proposal.

No. 348. THE RESIDENT'S OFFICE,
Bangalore, 21st January 1902.

Copy of the foregoing letter is forwarded to the Dewan of Mysore with reference to his Secretary's letter No. 9685—Pol. 160-92, dated the 19th December 1901.

Letter No. 529, dated 31st January 1902, from the Deputy Commissioner, Kadur District, (with enclosure).

With reference to Government Order No. 7232-8—Mis. 1137, of the 5th November 1901, *re* the tour of His Highness the Maharaja of Mysore, with certain instructions in connection with the same, I beg to submit a brief report on the receipt and expenditure in connection with the said tour.

2. Mr. Fraser, the Tutor and Governor to His Highness the Maharaja, remitted in advance Rs. 1,536-10-0 for supplying provisions and construction of sheds and pandals in all the camps in this district. The actual expenditure was, however, Rs. 1,809-15-9 or Rs. 273-5-9 in excess of the advanced amount. Out of this excess amount, Rs. 271-6-9 was received from the Camp Superintendent and the balance of Rs. 1-15-0 was met out of Rs. 102-9-0, the amount realized by sale of sheds and pandals of the several camps, and the balance of sale proceeds, *viz.*, Rs. 100-10-0, was remitted to Mr. Fraser by means of R. T. Receipt.

3. I further beg to state that the camp arrangements were satisfactory and His Highness the Maharaja expressed his satisfaction at the same.

4. I herewith enclose, for favor of perusal, copy of my letter No. 1123, dated 31st January 1902, addressed to Mr. Fraser, I.C.S., regarding the said tour.

5. As a certain amount of difficulty would have been felt for His Highness the Maharaja and party in getting from Kalasa to Gangamula and on to Mathuli, I requested the District Forest Officer, Mr. Ricketts, to take up the path-making and sheds from Kalasa to Gangamula, and the Police Assistant Superintendent, Mr. Subba Rao, was requested to see to the other part from Gangamula to Sringeri. Amidst heavy rainfall both the officers rendered considerable help in making the two camps of Gangamula and Mathuli successful. The Executive Engineer, Mr. Subba Rao, took great interest in keeping the travellers' bungalows neat and clean and in temporarily repairing the roads which, unfortunately, the rain spoiled. The Amildars of Mudgere and Koppa took great pains as regards camp supplies. The Head Accountant of the

District office, H. Kesavachar, was specially deputed by me to see that all things required for the camps are properly supplied and paid for. He gave me entire satisfaction in checking the accounts and in looking to other details connected with the camp.

ENCLOSURE.

Letter No. 1123, dated 31st January 1902, from the Deputy Commissioner, Kadur District, to the Tutor and Governor to His Highness the Maharaja of Mysore.

With reference to the correspondence ending with your letter No. 128, dated 13th November 1901, *in re* the Provincial tour of His Highness the Maharaja of Mysore, I beg to submit the following report giving details of receipts and expenditure in connection with the said tour in this district.

2. An advance of Rs. 1,536-10-0 by means of R. T. Receipt was made to me for supplies to the marginally noted camps as per your indent. Owing to some excess expenditure that was incurred in several camps over the estimated amount advanced, Rs. 273-5-9 was spent over and above the amount of Rs. 1,536-10-0 advanced, and for which Rs. 271-6-9 was received. In other words the actual expenditure came to Rs. 1,809-15-9 whereas the actual receipt amounted to Rs. 1,808-0-9. The difference of Rs. 1-15-0 was due to the Mudgere Amildar having charged Rs. 31-15-0 for the arrangement of lunch at Ballalroyandrug and Siuksar and for which Rs. 30 was received from Mr. P. Raghavendra Rao, Assistant Tutor This amount Rs. (1-15-0) was met out of Rs. 102-9-0, being the sale proceeds of sheds etc. The details for the total receipts and expenditure are given in the enclosed Statement No. 1.

I. Mudgere Taluk—	Rs. a. p.	II. Koppa Taluk—	Rs. a. p.
(1) Mudgere ..	.. 277 0 0	(1) Gangamula	... 377 9 0
(2) Kelagur ...	... 328 1 0	(2) Mathuli	... 277 0 0
(3) Kalasa ...	... 277 0 0	Total	... 654 9 0
Total	... 882 1 0	Grand Total	... 1,536 10 0

3. For the construction of sheds and pandals alone in several camps, a sum of Rs. 895-7-9 was spent against the estimated amount of Rs. 750. The excess expenditure under this head was partly due to the construction of sheds at Ballalroyandrug and Sinksar, which were omitted in the indent and partly to the high wages paid to the coolies at Kelagur and Gangamula, where labour had to be brought from some distance.

4. The sheds at Mudgere, Kelagur and Kalasa in the Mudgere Taluk were auctioned and Rs. 44-12-0 was realized by sale of kithanar and other cloths and bamboo mats, and Rs. 49-5-0 by sale of bamboos, timber etc., as shown below :—

Sheds at—	Kithanar cloth.	Bamboos.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
(1) Mudgere ...	... 29 13 0	32 0 0	61 13 0
(2) Kelagur ...	... 7 4 0	8 0 0	15 4 0
(3) Kalasa ...	... 7 11 0	9 5 0	17 0 0

(4) Mathuli ...	... 8 8 0	....	8 8 0
Grand Total	... 53 4 0	49 5 0	102 9 0

The sheds at Gangamula, Mathuli, Ballalroyandrug and Sinksar found no buyers at auction. Only the kithanar cloth at Mathuli was auctioned for Rs. 8-8-0. The total amount realized in auctioning the sheds was Rs. 102-9-0, out of which the balance of Rs. 1-15-0 due to the Mudgere Amildar (*vide* para 2 above) was remitted to him and a receipt for the actual amount spent in Ballalroyandrug and Sinksar, *viz.*, Rs. 31-15-0, obtained from the Amildar, is herewith sent. For the balance of Rs. 100-10-0 a R. T. Receipt No. 23, dated 18th January 1902, for the same amount, is herewith submitted. The details showing the cost of construction of sheds in several places and the amount realized in auctioning them are shown in Statement No. II enclosed.

5. As the carting of Harriali grass from the maidan was estimated to cost Rs. 156-8-0, an attempt was made to make hay on the spot, which appears to have answered and cost Rs. 47-12-0, thereby showing a saving as also giving the local inhabitants a practical experience of what they can do in that line.

ORDER THEREON.—Recorded with satisfaction.

JUDICIAL

Proceedings of the Government of Mysore,

READ —

Letter No. 841—73, dated the 5th August 1901, from the Officiating Inspector General of Police in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.

I have the honor to submit herewith the Report on the working of the Arms and Explosives Regulations for the year 1899-1900.

2. The Statement No. I, hereto annexed, shows the number and the description of the licenses issued under the various forms.

(*a*) It will be seen from it that in Form I, only one license to transport arms, ammunition or Military stores in the territories of Mysore, was issued against *nil* in the previous year. This was in the Tumkur District.

(*b*) Under Form II of licenses to manufacture, convert or sell arms, ammunition or Military stores, there is a net decrease of 10 licenses. There is a decrease of 9 in Bangalore, 2 in Tumkur, 2 in Mysore and 1 in Hassan, while there is an increase of 4 in the Kadur District. As regards arms covered by these licenses, there is a perceptible decrease of 850 in the number of fire-arms and 47 in the number of other arms. The decrease is mostly in the Bangalore District, where licenses were issued for only 80 fire-arms during the year against 789 for the previous year; whereas in the Kadur District, there is a decrease of 90 fire-arms though the number of licenses issued increased by 4.

(*c*) Under Form III of licenses to keep and sell arms, ammunition or Military stores, the number issued is nearly the same, *viz.*, 76 against 79 in the previous year; but the number of fire-arms covered by them shows a decrease of 140. The decrease is mostly in the Kadur District.

(*d*) Under Form IV of licenses to possess arms, etc., 11,759 were issued in the year under report against 11,343 during the past year, showing a net increase of 416 licenses. A proportionate increase is also found in the number of fire-arms covered by them, *viz.*, 291. The increase was in the Bangalore, Kadur, Tumkur and Chitaldrug Districts, whereas there was a decrease in the Kolar, Mysore, Hassan and Shimoga Districts and in the French Rocks Sub-Division. The decrease in the French Rocks Sub-Division is reported to have been due to the non-issue of licenses to persons living in certain villages in the Seringapatam Taluk for their having taken part in the serious riot that took place there.

(*e*) Under Form V of licenses to go armed for a journey only, 13 were issued during the year against 27 in the past year.

(*f*) Under Form VI of licenses to possess fire-arms, etc., in districts which have not been disarmed, 27 are shown as having been issued during the year against 16 during the past year. The Kolar District has shown this. The District Magistrate thereof, who was asked to explain this, reports that the figure represents the licenses granted for blasting purposes and that they were shown against Form VI, because they were granted in this form free of all fee as there were no other forms suited for the purpose.

(*g*) Under Form VII which relates to licenses to possess and carry arms, the total number issued remained nearly stationary. In connection with this, the District Magistrate of Shimoga reports that the exact number of licenses issued under this form and the number of arms produced before Magistrates for inspection, cannot be given as some of the Amildar-Magistrates state that no separate registers were kept for the purpose. The District Magistrate has, however, added that orders would be issued regarding this.

3. The Statement No. II annexed shows the number of the persons licensed to deal in sulphur, etc., in the Province of Mysore. It will be seen from it that there were 75 licensed dealers during this year against 79 in the previous year. The quantity of sulphur in hand with the dealers in the beginning of the year, was 4 tons, 13 cwts. and 15 lbs., and the quantity purchased during the year was 18 tons, 2 qrs. and 7 lbs. The quantity sold during the year was 15 tons, 11 cwts. and 3 qrs., and the balance remaining unsold was 7 tons, 1 cwt., 3 qrs. and 22 lbs. As reported last year, sulphur is reported to have been used for medical and disinfecting purposes and for ordinary fire-works.

4. The Statement No. III appended shows the inspection by Police Officers and Magistrates, of stock premises and books of licensed dealers. The Superintendents of Police inspected 21 out of 107 shops and Police Inspectors 35. The inspection of shops by the Superintendents shows an improvement. The Superintendents of the Kolar, Shimoga and Chitaldrug Districts and of the French Rocks Sub-Division did not inspect any shop during the year under report.

5. The Statement No. IV shows the number of the licenses issued under the Explosives Regulation of 1888. There is an increase of 6 in the number issued, which is accounted for by an increase of 8 in the number of the licenses issued to manufacture, possess and sell explosives and a decrease of 2 in the number of those issued for (1) selling and (2) merely for possessing these articles. The increase was in the Shimoga District. This is said to be due to a stricter enforcement of the rules.

6. The appended Statement A shows the number of the cases and of the persons prosecuted under the Arms Regulation. It will be seen from it that in 207 cases, 212 persons were prosecuted and that 183 cases with 188 persons ended in conviction. The largest number was in the Bangalore and the Shimoga Districts. These and the above figures show that the Regulations to possess arms and explosives have been pretty carefully enforced.

No. 13146-55— J. 1111, DATED BANGALORE, 10TH FEBRUARY 1902.

ORDER THEREON.—The report deals with both the Arms and Explosives Regulations but does not appear to recognize the fact that the manufacture, possession and sale of all *explosives* including ammunition, must be licensed under the Explosives Regulation. Thus Statement IV of the report shows a total of 16 licenses issued under the Explosives Regulation, while Statement I shows a total of 11,896 licenses issued under the Arms Regulation, (Forms II, III, IV and VI) and embracing the manufacture, possession or sale of ammunition. All of these 11,896 licenses, in so far as they include ammunition, should have been issued under the Explosives Regulation. It may be that many of them include no ammunition and therefore have been properly issued; but this can hardly be the case with regard to all, and of course cannot be so in the case of the 27 licenses issued under Form VI.

2. Government observe in conclusion that there was very great delay in the submission of the report to Government.

No. 13067—J. 1090, DATED BANGALORE, 6TH FEBRUARY 1902.

ORDER THEREON.—The Government approve of the following amendment of the Rules relating to Advocates and Pleaders framed by the Chief Court under Section 10 of the Mysore Legal Practitioners' Regulation, III of 1884 :—

"In clause (*g*) of Rule 1 of the Rules relating to Advocates and Pleaders, published in the *Mysore Gazette*, dated the 20th December 1900, Part II, page 1671, between the words "any person" and "intending to apply" insert the words "not a practising Advocate, Vakil or Attorney of any of the High Courts of Judicature in British India."

Correspondence ending with letter No. 710, dated the 21st January 1902, from the Inspector General of Registration in Mysore, regarding appointments of Sub-Registrars.

No. 13086—J. 1097, DATED BANGALORE, 7TH FEBRUARY 1902.

ORDER THEREON.—In para 2 of their Order No. 7300-9—J. F. 28-92, dated 22nd December 1896, the Government desired that the men to be appointed for newly opened Special Sub-Registry offices should be carefully selected with reference to their educational and other qualifications; that, in the absence of special sanction, no person shall be nominated who had not at least passed the First Examination in Arts; and that preference should generally be given to a B. A. or to an F. A. who had either passed the Local Service Examinations or had qualified himself for admission to a First Grade Pleadership in Mysore. To this direction the attention of the Inspector General of Registration was drawn in connection with certain appointments proposed by him and sanctioned in Government Notification No. 11222—J. 900, dated the 6th January 1902.

2. Upon this, the Inspector General represents that in the interests of Departmental efficiency, he should be allowed a discretion to make exceptions in respect of officials of exceptional merits and long service in the Department, as otherwise the subordinate service though otherwise qualified, will, in his opinion, be entirely shut out by a strict application of the rule. He adds; "the appointment of a Sub-Registrar is not better paid than that of a Taluk Sheristadarship nor is it more responsible." Where no restriction is laid down for that and many other important classes of offices, a hard and fast rule, not even making an exception in the case of deserving old servants of the Department, will certainly work very harshly, also resulting in much discontentment and deterioration in the subordinate service.

3. The Government observe that the Order of 22nd December 1896 was passed after due consideration, and they are not prepared to adopt the course now recommended by the Inspector General, which would involve the lowering of the qualifications required for this class of appointments. Recruitments of Sub-Registrars should, therefore be confined to men possessing the prescribed educational qualifications; and officials of long service and of merit, but not possessing such qualifications, should seek preferment in the line in which they are employed. In exceptional cases, however, the Inspector General may apply for the special sanction of Government.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

(1) This office letter No. 15928—J. 1588, dated the 30th May 1901, to the First Assistant to the Resident in Mysore.

I am directed to state that one Ningappagauda, who was arrested by the Sirsi Police in Bankasara village of the Sorab Taluk on the 2nd November 1898, and remanded to the Sorab Taluk Lock-up by order of the Amildar-Magistrate, was on the 10th December 1898 handed over to the custody of the Sirsi Police on receipt of a warrant from the District Magistrate of North Kanara.

2. The District Magistrate of Shimoga in forwarding a bill for Rs. 7-1-0, received from the Sagar Sub-Division Officer, on account of charges incurred in feeding and escorting the said accused from the date of his arrest till he was surrendered to the Sirsi Police, requests that the amount of the bill in question may be recovered from the District Magistrate of North Kanara in the same manner as the Magistrates in the Bombay Presidency recover from this State similar charges incurred by them in connection with prisoners surrendered to this State. The provision for such recoveries made by the Bombay authorities, is stated to be contained in the Order of the Bombay Government No. 5455, Political Department, dated the 7th September 1896, a copy which is appended for reference.

3. As between the Mysore and Madras Governments, the procedure in such cases is regulated by para 2 of the Mysore Chief Commissioner's Notification No. 8761—J. 12, dated the 21st January 1879, and the Madras Government's letter to the Chief Commissioner No. 2072, dated the 23rd August 1880, (copies enclosed) according to which all feeding and escorting charges are borne by the State complying with the demand for surrender. There has been no such mutual arrangement with the Bombay Government; and as these charges are usually claimed and recovered by Magistrates in the Bombay Presidency whenever accused persons are surrendered by them to Native States, I am to say that the Durbar consider it only fair that unless an arrangement similar to what is in practice with the Madras Government, and which commends itself as being both fair and convenient, can be effected, the Bombay Government should, on its part, bear the cost of feeding and escort, incurred in respect of prisoners surrendered by this State to Magistrates in Bombay Districts. The Durbar would accordingly feel obliged by your kindly moving the Honorable the Resident to address the District Magistrate of North Kanara with a view to the amount of the bill * being recovered and remitted to the District Magistrate of Shimoga.

* Herewith forwarded in original.

(2) Correspondence ending with the following letter from the First Assistant to the Resident in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.

I am directed to acknowledge the receipt of your Secretary's letter No. 1179—J. 118, dated the 23rd July 1901, regarding the claim of the Durbar for Rs. 7-1-0 on account of the conveyance and maintenance charges of Ningappagauda handed over to the custody of the Sirsi Police on the 10th December 1898.

2. The Officiating Resident considers that in view of the delay which has occurred in presenting the claim, it seems preferable not to press the Government of Bombay for its payment. The opportunity might, however, be taken to address that Government with a view to the introduction of a reciprocal arrangement, such as exists between Mysore and Madras, under which each administration meets the charges actually incurred by itself. I am to enquire whether the Durbar concur in the proposal.

3. In my letter No. 2817, dated the 6th June 1901, a list of all cases during the last three years in which applications for the payment of such charges had been made by officers of the Bombay Presidency, was asked for, but in your Secretary's letter under acknowledgment, two instances only, in which such demands were made to the District Magistrate of Shimoga, have been mentioned. I am to ask whether there have not been other similar cases, either relating to Shimoga or any other district of the State.

4. The original enclosures of your Secretary's letter No. 15928—J. 1588, dated the 30th May 1901, are herewith returned.

(3) This office letter No. 5148—J. 363, dated 21st September 1901, to the First Assistant to the Resident in Mysore.

I am directed to acknowledge the receipt of your letter No. 4379, dated the 4th instant, relative to the Durbar's claim for Rs. 7-1-0 on account of the conveyance and maintenance charges of Ningappagauda, handed over to the custody of the Sirsi Police on the 10th December 1898, and to state in reply that for the reasons expressed in para 2, the Durbar do not desire to press the Bombay Government for the payment of the charges in question, and that they readily concur with the Honorable the Officiating Resident in his proposal that opportunity might be now taken to move that Government with a view to the introduction of a reciprocal arrangement, such as exists between this State and Madras, under which each administration meets the charges actually incurred by itself.

(4) This office letter No. 7405—J. 6231, dated the 8th November 1901, to the same officer, stating that there were no cases in any district, other than Shimoga, during the past three years, in which the officers of the Bombay Government demanded payment of conveyance and other charges on account of prisoners surrendered by them to the Mysore State for trial.

READ AGAIN—

The following letter No. 6438, dated 30th December 1901, from the First Assistant to the Resident in Mysore, to the Dewan of Mysore and its enclosure.

With reference to the correspondence ending with your office letter No. 7405—J. 623, dated the 8th November 1901, on the subject of the procedure for the recovery of maintenance and conveyance charges of accused persons extradited from the Bombay Presidency to the Mysore State and *vice versa*, I am directed to forward, for the information of the Durbar, copy of a letter No. 8758, dated 18th November 1901, received from the Government of Bombay on the subject.

Enclosure.

Copy of a letter No. 8758, dated the 18th December 1901, from the Acting Chief Secretary to the Government of Bombay, to the Honorable the Resident in Mysore.

I am directed to acknowledge the receipt of your letter No. 5938, dated the 29th November 1901, relative to the procedure for recovering the maintenance and conveyance charges of accused persons extradited from the District of North Canara to the Mysore State and *vice versa*, and in reply to state that the Governor-in-Council regrets that he cannot accept your proposal to amend procedure by making these charges debitable to the side which complies with the demand for surrender, as it would be contrary to the general rule observed in this Presidency.

No. 13544-53—J. 1147, DATED BANGALORE, 17TH FEBRUARY 1902.

ORDER THEREON.—The foregoing correspondence is communicated to all District Magistrates, with the remark that as the Bombay Government is unwilling to make the feeding and escorting charges of prisoners, debitable to the State which complies with the demand for surrender, all such charges incurred by the Mysore State in respect of prisoners surrendered to Magistrates in Bombay districts, will be recoverable from the Bombay Government.

2. The procedure as between the Mysore and Madras Governments will, of course, remain unaltered.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—All District Magistrates in Mysore.
The Inspector General of Police in Mysore.
The Comptroller to the Government of Mysore.

OFFICE OF THE DEWAN OF MYSORE,
Dated Bangalore, 24—25th February 1902.

No. 14015—J. 1180.

NOTIFICATION.

In exercise of the power conferred by Section 22 of the Succession Certificate Regulation, VII of 1901, the Government are pleased to invest the Courts mentioned below with the functions of a District Court in proceedings under the said Regulation arising within the local limits, and involving amounts not exceeding in value the pecuniary limits, of their respective jurisdictions :—

The Court of the Sub-Judge of Mysore.
The Courts of the Munsiffs of Tumkur, Kolar, Chitaldrug and Chikmagalur.

By Order,
H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

Proceedings of the Government of Mysore,

No. 13823-31—L. F. 38-97, DATED BANGALORE, 21ST FEBRUARY 1902.

ORDER.—An instance having come to the notice of Government in which the Moti of a certain bungalow in the Mysore District was found utilizing a part of it as his private lodging place, it is requested that express orders be issued and strictly enforced prohibiting such servants from occupying for dwelling purposes any portion of the bungalows, or out-houses attached thereto, which are solely intended for the use of travellers.

H. V. NANJUNDAYYA, *Secy. to Govt., Gen. & Rev. Depts.*

To—The Chief Engineer of Mysore.
The Deputy Commissioners of Districts.
The Presidents of District Fund Boards.

READ—

Letter No. 425, dated the 18th January 1902, from the President of the District Fund Board, Kolar Local Fund Circle, submitting for sanction the revised District Fund budget for the year 1901-02.

Letter No. 430, dated 24th January 1902, from the same officer.

No. 14027-39—L. F. 2-1901, DATED BANGALORE, 25TH FEBRUARY 1902.

ORDER THEREON.—The increases proposed are as given below :—

		Rs.

(ii)	B. Public works to be executed by Revenue Department: I Original works and incomplete works	19,450
III.	C. Civil charges—	
V.	Travellers' bungalows	500

2. *Opening Balance.*—The increase under this head is chiefly due to lapses in the sanctioned grants of the previous year, and is supported by the actual accounts furnished by the Comptroller. The estimate is approved.

3. *B. Public Works to be executed by Revenue Department.*—The supplemental grants proposed for sinking new wells and for the completion of the incomplete works of previous years are passed. But the present budget makes no provision whatever on account of the usual supervision charges at 10 per cent on the cost of works. The omission will be supplied and the estimate under "III. Establishment" raised from Rs. 1,113 to Rs. 3,058.

I. Original works—	Rs.
Sinking well ..	500
Incomplete works.	18,951
Total ...	19,451

4. *C. Civil Charges, V Sweepers for 3rd Class Bungalows and Musafirkhanas.*—For supplying furniture for all the third class bungalows on a uniform scale, a sum of Rs. 500 is provided under this head. The provision is sanctioned.

5. The estimated receipts and expenditure of the Kolar Local Fund Circle for 1901-02, as above revised, will be as shown below. The usual particulars are given in the accompanying appendix :—

		Rs.

(1) Letter No. 436—368, dated 2nd November 1901, from the President, District Fund Board, Shimoga, submitting a revised budget of the District Funds of the Shimoga Local Fund Circle for the year 1901-02.

(2) Letters Nos. 517-428 and 518-429, dated 27th November 1901, from the same Officer.

No. 14134-46—L. F. 7-1901, DATED BANGALORE, 26TH FEBRUARY 1902.

ORDER THEREON.—The modifications in the above are shown hereunder :—

Receipts.

Items.	Original estimate. Rs.	Modified estimate. Rs.

C. Civil Charges—		
4. Midwives	1,628	1,508

2. *I. 76 per cent of Local Cess.*—The President now reports that the arrears of 76 per cent of Local Cess expected to remain uncollected at the beginning of the current year is Rs. 3,327 and that the total demand including this amount aggregating Rs. 80,190 may be adopted as the correct estimate for the current year. This is approved.

3. *Opening Balance.*—The sum of Rs. 31,289, which is the actual balance* according to the Comptroller's accounts on 1st July 1901 will be adopted as the correct opening balance for 1901-02.

* Preliminary.

EXPENDITURE.

4. *A. Public Works to be executed by the Public Works Department.*—The increase of Rs. 1,091 entered under "1. Original Works" for flooring Courpalais' Chattram with Cudappa stones and of Rs. 2,410 under "2. Repairs" to meet the increased rates of mileage allotments for certain roads sanctioned in Proceedings No. 8098-8100—L. F. 7-98, dated 25th November 1901, as also the new item of Rs. 1,849 provided for incomplete works of previous years, are passed. To meet the proportionate cost of supervision charges on the increased allotments for works, the estimate under "3. Establishments" will also be raised by Rs. 936.

5. *B. Public Works to be executed by Revenue Department.*—The new provision of Rs. 9,786 made under this head to meet the cost of incomplete works of previous years is approved. But as no increase is provided on account of supervision charges for incomplete works, the estimate under "3. Establishments" will be raised by Rs. 979. The attention of the President is invited to the observations made in paras 6 and 3 of Proceedings Nos. 12399-903—L. F. 39-98 and 3168-73—L. F. 2-98, dated 13th May and 2nd September 1899, respectively, and it is hoped that in future, the budget provisions will be fully utilized during the year in which the works are proposed to be carried out or completed.

6. *C. Civil Charges—4. Midwives.*—The President proposes to reduce the provision under this head by Rs. 120 as only one out of two scholarships provided in the original budget has been sanctioned for the current year. This is sanctioned.

7. The budget estimates of the District Funds of the Shimoga Local Fund Circle for 1901-02, as now revised, are as given below, the usual particulars being appended :—

		Total ...	310

No. 14301-8—L. F. 29-1900, DATED BANGALORE, 28TH FEBRUARY 1902.

ORDER THEREON.—The sum of Rs. 310, applied for for the two works referred to in the above cannot be sanctioned. The President was wrong in incurring expenditure without sanction.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The President of the District Fund Board, Tumkur Local Fund Circle.
The Presidents of other District Fund Boards, for information.

Letter No. 521, dated 31st December 1901, from the President, District Fund Board, Mysore Circle, submitting the revised budget estimates of the Mysore Circle for the year 1901-02.

No. 14268-80—L. F. 4-1901, DATED BANGALORE, 28TH FEBRUARY 1902.

ORDER THEREON.—The increases proposed are shown below :—

		Rs.
(i) Opening balance	... ...	23,969
	Expenditure.	
A. Public Works—		
(i) Original works	... ...	1,017
(iii) Establishments	... ...	189
B. Public Works—		
(v) Incomplete works	... ...	20,908
C. Civil Charges—		
(iii) Hospitals and Dispensaries	... ...	300
(ix) Contributions	... ...	500
	Total ...	22,905

2. *Opening Balance.*—The increase under this head, based on the accounts of the Comptroller is chiefly due to lapses in the sanctioned grants for 1900-01, the estimate is passed.

EXPENDITURE.

3. *A. Public Works to be executed by the Public Works Department.*—The provision newly made for the special improvements of Chamrajnagar-Narsipur road as per Proceedings of the District Fund Board, dated 30th November 1901, as also for the proportionate cost of establishment charges, accounts for the increase under this head, which is allowed.

4. *B. Public Works to be executed by the Revenue Department.*—A sum of Rs. 20,908 is entered under this head on account of incomplete works of previous years in accordance with Government Proceedings No. 5595-96—L. F. 4-01, dated 1st October 1901. But as no provision has been made on account of supervision charges therefor, the estimate will be raised by Rs. 2,094 to meet the cost of establishments at ten per cent on the total provision for works amounting to Rs. 42,936.

The attention of the President is drawn to the large sum of money that was allowed to lapse in the previous year and he is requested to see that provisions made for Public Works are fully utilized in future.

C. CIVIL CHARGES.

5. *III. Hospitals and Dispensaries.*—The provision of Rs. 300 made under this head is on account of furniture for the Local Fund Dispensaries in the District, and is passed.

6. *IX. Contributions.*—The increased provision of Rs. 500 is stated to be due for the maintenance of five miles of the Chamundi Hill road payable to the Mysore City Municipality for the year 1899-1900 as this sum was not adjusted in the Comptroller's office during that year. The provision is retained, subject to the submission of explanation as to the circumstances under which the amount of contribution due for the said road is entered at Rs. 500 for five miles instead of Rs. 470 for four miles as fixed in Government Proceedings No. 8197-8—L. F. 77-93, dated the 10th January 1899.

7. With these remarks the revised estimates of receipts and expenditures of the Mysore Local Fund Circle for 1901-02 are sanctioned as shown hereunder. The usual particulars are appended :—

Letter No. 1061, dated the 21st January 1902, from the Deputy Commissioner, Kadur District, to the Secretary to the Government of Mysore, General and Revenue Departments

I have the honor to bring the following facts to the notice of Government regarding the outbreak of plague at Tarikere. On Monday last, the 13th instant, I received notice of a suspicious case of plague in the town and on my arrival on Tuesday morning I met the leading

towns-people and found them willing to turn out at once, provided that they were allowed to take bamboos, etc., for building necessary sheds. As I found that there were an insufficient number of bamboos in the Forest Depot and as it would take a very long time to procure them through the Depot, I directed the Amildar to issue free licenses to persons applying to cut them themselves from the neighbouring forests on condition that the bamboos, etc., were utilised for sheds only. This has accordingly been done with the result that an extremely small amount of forest produce has been used, about 300 small bamboos, the people taking advantage of the material at their disposal. As a certain amount of difficulty has been experienced in procuring drinking water at the places where people have encamped, I have placed a sum of Rs. 50 in the hands of the Amildar to use in the digging of temporary wells near tank beds, etc. The school had to be closed and the building (the old Taluk Cutcherry) is being utilised as a Police Station, it being isolated to a certain extent, and extra police are required for guarding the town. The dispensary had also to be moved to the old school-house, where it is eventually intended to locate it, as plague had broken out next door to the old dispensary. Up to the present quite three-fourths of the town has been evacuated and the rest of the people are preparing to go, and this within a period of four days, it is most creditable and quite unique in my experience of plague matters and I attribute it entirely to the tact and energy displayed by the Amildar, Mr. N. Subba Rao, and I cannot praise his work too highly in this town as well as in other villages of his taluk which have been attacked, and I sincerely trust that Government will recognise his good services not only in this Department but in all.

No. 13459—L. B. (P). 1466, DATED BANGALORE, 14TH FEBRUARY 1902.

ORDER THEREON.—Government have read the above report with interest and convey their thanks to the Deputy Commissioner and to the Amildar, Nadig Subba Rao, for the excellent arrangements made for camping out the inhabitants of the town.

No. 14163-75—L. F. 20-00, DATED BANGALORE, 27TH FEBRUARY 1902.

ORDER THEREON.—During the year under review there were 121 Municipalities or 5 more than in the preceding year, the Municipalities which came into existence newly being—

(1) Talkad .. .. } Mysore District.
(2) Kalale .. .. }
(3) Kyatasandra .. .. Tumkur do.
(4) Turavanur .. .. } Chitaldrug do.
(5) Nayakanhatti .. .. .. }

2. The Comptroller's statement No. 1 shows the population of each Municipality of which the following is an abstract:—

3. The Municipalities of the Bangalore and Mysore Cities were governed by the Bangalore Municipal Regulation of 1871, as extended to the Mysore City by Regulation III of 1888. In view to amend this Regulation in certain respects, Regulation No. VII of 1899 was passed during the year and the Municipal Commission of Bangalore framed Bye-laws for the collection of Octroi duties. The remaining Municipalities in the State were governed by the executive orders of Government. Except in the two Cities named above which enjoy the privilege of electing half the total number of Municipal Commissioners, Municipal affairs are managed by committees consisting of *ex-officio* and nominated members appointed by Government. It may be noted here that under the authority conveyed in Government Proceedings No. 3607-09—L. F. 51-92, dated 14th September 1899, the Agent of the Sringeri Matt was made the President of the Sringeri Municipality, and the Deputy Commissioner, Kadur District, ceased to have direct control over the management of the affairs of the Jahgir Municipality.

4. The number of Municipal members in the several Municipalities as they stood at the end of the year under review is given in the following abstract statement:—

No.	Municipalities.	Number of Municipalities.	Members.			Total at the end of 1899-1900.	Remarks.

5. Monthly meetings were regularly held in all the Municipalities, except those which were formed in the course of the year and those noted in the margin, the cause for the deficiency in the latter being mainly the prevalence of the plague. The attendance of members was generally good.

7. The Cities of Bangalore and Mysore of course contributed the largest revenue. Leaving them out, the Municipal revenue ranged between Rs. 294 and Rs. 19,743 (in Kalale and Davangere, respectively), the average income being Rs. 2,951.

8. *Octroi.*—The details of revenue realized in 1899-1900 on the several articles subjected to Octroi duties as compared with those of the previous year are exhibited in the following statement :—

No.	Details.	1898-99.	1899-1900.
		Rs.	Rs.
1	Cocoanuts, fresh	14,476	19,590
2	Do dry	2,321	3,004

13	Cloths	38,580	60,755
	Total ...	1,30,027	1,79,717

9. From the above it will be seen that the income was greater than that of the previous year by Rs. 49,690. The increase was chiefly due to the fact that, in the Bangalore City, tobacco, which had hitherto enjoyed exemption from taxation, became subject to Octroi under Government Proceedings No. 12462—L. F. 194-94, dated 2nd May 1899, and the duty was, concurrently with the Civil and Military Station Municipality, extended to the marginally noted articles under Government Proceedings Nos. 4251 and 7603-4—L. F. 194-94, dated 5th September 1899 and 4th January 1900, and (2) that in some of the Municipalities in the Bangalore, Kolar, Shimoga and Kadur Districts the duty was levied for the first time.

Statement No. 3 furnished by the Comptroller includes Rs. 12,452 realized from tolls, sale contract, coal, etc. This sum should not have been included in this statement which is intended to show the details of Octroi revenue only.

10. *House-tax, Lighting-tax and Mohatarfa.*—Under these heads also there were increases amounting to Rs. 27,180 due chiefly to the collection of arrears of previous year.

11. *License Receipts.*—The only Municipalities which derived an income from this source were the Cities of Bangalore and Mysore. The details of revenue realized during the year are given below as compared with those of the previous year:—

12. Tax on carriages and animals was hitherto confined to the Mysore Municipality. During the year under review, the levy of taxes and tolls on vehicles and animals, under Sections 37 to 43 and 49 to 56 of the Municipal Regulation was sanctioned by Government in Proceedings No. 4251—L. F. 194-94, dated 27th October 1899, for the Bangalore City. The revenue realized during the year amounted to Rs. 2,775.

14. *Land Revenue and Local Cess.*—Under orders of Government the land revenue collected within the Municipal limits of Bangalore was as usual credited to the Municipality. But the source from which Rs. 1,012 was realized in the marginally noted Municipalities is not stated. The omission should be supplied.

16. *Demand, Collection and Balance.*—The total demand including the arrears of previous years amounted to Rs. 8,17,618 as given in the reports submitted by the Presidents of Municipalities. Out of this only Rs. 6,45,359 were collected leaving an outstanding balance of Rs. 1,72,257 at the end of the year. This large balance to be collected is stated to be due to the continuance of plague difficulties in Bangalore City and some other places as well as to the late completion of jamabandi and house-tax revision in Mysore. The Presidents of Municipalities are requested to submit statements of such items and make every endeavour to collect the recoverable balance as soon as practicable.

EXPENDITURE.

17. *Head Office.*—The allowances paid to the Presidents and Vice-Presidents of the Bangalore and Mysore Cities, and the cost of their office establishments as well as the salaries of clerks, etc., employed in the offices of the Deputy Commissioners and Taluk Amildars, were debited to this head. The decrease was chiefly due to the cost of the Municipal and Local Fund establishments of the Dewan's and Comptroller's offices having been ordered in Government Proceedings No. 7605-13—L. F. 67-97, dated 4th January 1900, to be debited to Provincial Funds with effect from 1st July 1899 instead of apportioning the same among the several Municipal and Local Fund Boards as was the case till then.

18. *Collection.*—The increase under this head is due to the additional establishment in connection with the taxes referred to in paras 9 and 12 *supra* and to additional peons employed in the collection of Octroi duties at Harihar.

19. *Conservancy and Sanitation.*—A much larger expenditure was incurred during the year than in 1898-99 on the special sanitation of towns, the increase being due to the employment of additional hands and carts owing to the exceptional nature of the season.

Village Sanitation Rules were introduced into all the Municipalities in the State except the Cities of Bangalore and Mysore, which are governed by a special Regulation. It is satisfactory to note that Municipal Boards evinced keen interest in the enforcement of these rules with a view to improve the sanitary condition of their towns.

20. *Registrars of Births and Deaths.*—On the recommendation of the Plague Commissioner, the Government sanctioned the abolition of the Plague establishments maintained in the City of Bangalore and the appointment in their stead of a Health Officer for the City and the constitution of Registration offices for each of the seven Divisions, the cost being debited to Provincial and Municipal Funds in certain defined proportions. The number of deaths during the year fell from 24,728 to 13,600, while the number of births rose from 10,397 to 11,310 as shown in the appended statement:—

21. *Lighting.*—During the year 104 towns were lighted at a cost of Rs. 45,278 against 101 towns costing Rs. 43,922 in the previous year.

22. *VIII. Public Works.*—The details showing the expenditure incurred by the Municipal agency during the year and the amount paid on account of their supervision are shown in the Financial Statement No. II of which an abstract is given below :—

No.	Municipalities.	Cost of works.	Supervision charges.	Total.
		Rs.	Rs.	Rs.

In the Cities of Bangalore and Mysore where fixed establishments are kept up and in Bangalore District the cost of supervision exceeded 10 per cent. The Deputy Commissioner, Bangalore District, should have explained the reasons for exceeding the limit imposed by Government order.

23. *Supervision Charges.*—The expenditure debited under this head on account of special establishments maintained in some of the Municipalities and contributions towards the salaries of Work Inspectors, amounted to Rs. 17,805 as against Rs. 16,648 in the previous year.

24. *Water-supply, Original.*—It appears that Rs. 7,687 were expended on original works for the improvement of drinking water-supply during the year as against Rs. 6,684 in the previous year. In addition to this, Rs. 5,643 were spent on the improvement of the existing source of water-supply. The moiety of cost debited to Municipal Funds for the works undertaken by the Sanitary Department is shown below :—

	Rs.
Bangalore City	5,060
Kadur District	2,683
Chitaldrug District	3,233
Kolar Water-supply	5,096

26. *Charitable Grants.*—The figures entered in the President's reports do not tally with those furnished by the Comptroller. According to the Comptroller's accounts, the expenditure incurred during the year on hospitals and other medical and charitable institutions amounted to Rs. 39,240, as against Rs. 40,614 in the year preceding. The number of hospitals and dispensaries supported from Municipal Funds rose from 74 in 1898-99 to 77 in 1899-1900, the newly opened dispensaries being (i) at No. II Division of the Bangalore City (ii) at No. VII Division of ditto and (iii) at Tyamagondlu in the Bangalore District.

27. The number and cost of the institutions supported from Municipal Funds together with the number of patients treated in them are shown in the following statement :—

The reports of Bangalore City and Kolar District do not give the number of patients treated in each dispensary within their respective limits. This omission should be supplied in future.

28. *Vaccination.*—The Municipalities of Bangalore, Mysore, Hassan and Kolar, alone maintained special establishments for vaccination work, the duty in the remaining Municipalities being performed by the Taluk Vaccinators employed at the cost of Provincial Funds and the Hospital Assistants in charge of Local Fund Dispensaries. The following abstract statement shows the particulars of the number of persons vaccinated etc., during the year 1899-1900 as compared with those of the previous year :—

29. The Bangalore and Mysore Cities maintained the Maternity and Her Highness the Maharani's Hospital respectively. The Municipalities at the remaining District Head-quarters supported dispensaries established in them for women and children, while the remaining Municipalities in the State contribute fully or partly towards the cost of midwives in the several taluks. The cost incurred and the number of cases treated during the year are given in the following statement:—

32. *Gardens.*—From the reports received, it appears that the Maharaja's parks in the Shimoga and Hassan towns, for the former of which garden-seats were purchased during the year, and gardens maintained in the other minor Municipalities of the Shimoga District continued to be in fairly good condition. The Municipal park in Kolar is reported to be thriving, the reading room and lawn tennis court attached to it being, as usual, much frequented by the officials and the educated public. The Free library started in the Town Hall in commemoration of the Empress' Diamond Jubilee is also improving. The Municipality of Bangalore maintained a pleasure garden provided with lawn tennis courts, and several other Municipalities likewise maintained gardens, but the reports submitted do not show whether they are appreciated by the public and in what condition they are. The attention of the Presidents is invited to para 51 of Government Proceedings No. 14284-326—L. F. 315-92, dated 24th February 1893, and they are requested to see that statements similar to those embodied in the report of the Shimoga District, are submitted with their future reports.

33. Government regret to observe that there was great delay in the submission of the annual reports and accounts. None of the reports was received within the date prescribed *viz.*, 30th September 1900. The reports and accounts should, in future, be submitted so as to reach this office on or before the 1st October of the year following that to which they relate. For delays in this matter, Government expect a fortnightly explanation from the Presidents concerned.

Letter No. 3491, dated 16th—23rd December 1901, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore.

In forwarding the accompanying copy of letter No. 1774, dated 1st May 1901, received from the Comptroller of Mysore, I have the honor to request the favor of early orders of Government being obtained on the subject of the rates of mileage and batta allowable to midwives and compounders, when they are required to travel from one place to another in the interests of service.

Favor of early sanction being obtained is requested.

Letter No. 1774, dated 1st May 1901, from the Comptroller, to the Senior Surgeon and Sanitary Commissioner with the Government of Mysore.

With reference to his No. 4253, dated 26th March 1901, requesting to be informed of the rates of mileage and batta to which the compounders and midwives are entitled under Codal Rules, has the honor to state that the travelling allowances of such of the midwives and compounders as are attached to Government Dispensaries and whose pay is charged to the Provincial Revenues are regulated by the Rules in Part XII of the Mysore Service Regulations.

(2) Midwives are allowed a mileage of annas two per mile when they travel a distance of over five miles from their head-quarters, *vide* Government Order No. 4629-40—L. F. 55-93, dated 7th September 1893; no batta is, however, allowed to them for halts in connection with labor cases.

(3) As regards contingencies other than those contemplated in the Government Order quoted in the preceding para, in which midwives make halts and also as regards the travelling allowances admissible to the Local Fund Dispensary compounders in general, there appear to be no orders of Government fixing the rates, but the provisions of the Mysore Service Regulations having been recently extended (*vide* Government Order No. 6480-9—F. L. 651, dated 23rd February 1901) so far as they may be applicable to the servants of Municipal and District Fund Boards, midwives and compounders would appear to be amenable to the Rules contained in Part XII of those Regulations.

It is, however, suggested that a reference may be made to Government on the point.

No. 13921-30—L. F. 55-93, DATED BANGALORE, 24TH FEBRUARY 1902.

ORDER THEREON.—Government are pleased to accept the Comptroller's opinion. The rates, which are the same as those allowed to Government servants in other Departments, are sanctioned except in the case mentioned in para 2 of Government Proceedings No. 4629-40—L. F. 55-93, dated 7th September 1893, disallowing batta to midwives for halts in connection with labour cases.

EXPENDITURE.

3. *III. Collection—(a) Octroi.*—The increase of Rs. 204 proposed under this head in the Kolar Municipality, is in accordance with the revision of establishments sanctioned in Government Proceedings No. 2721-2—L. F. 14-1901, dated 13th August 1901, and is passed.

4. *III. Collection—(b) House and Mohatarfa Taxes.*—The budgets of Kolar and Bowringpet provide for increases on account of the arrears of pay and commission due to village servants for the collection of taxes from June 1900 to March 1901 in Kolar and from 1898 to 1901 in Bowringpet, which are said to have been withheld owing to the unsatisfactory collection work. The provisions made are therefore sanctioned.

REVENUE

Proceedings of the Government of Mysore,

READ—

Letter No. 1151, dated 1st June 1901, from the Deputy Commissioner, Tumkur District, to the Secretary to the Government of Mysore, General and Revenue Departments.

I have the honor to state that during the Jamabandi Settlement of the Kunigal and Gubbi Taluks, many of the totis and talaris of several villages complained to me that the raiyats were not paying them their miras. When I questioned the Amildars on the subject, they brought to my notice (especially the Amildar of Gubbi) that several decrees that he had passed in favor of these village servants had been set aside by Mr. M. Narain Rao, Deputy Commissioner, on the score of the suits having been entertained without stamps. Objection seems to have also been taken to the issue of processes without the production of stamps. It was further represented that these poor village servants were not in a position to advance these costs and hence the raiyats enjoyed immunity from giving the miras.

(2) Section 16 of the Mysore Court Fees Regulation does not exempt such application or plaint from Stamp duty, and under Article 1 (*b*), Schedule II of the said Regulation these are liable to be stamped with eight annas.

(3) I therefore request you to be so good as to move the Government to exempt such plaints or applications, as also processes issued in pursuance of the same from paying Stamp duty.

No. R. 3292-99, DATED BANGALORE, 1ST FEBRUARY 1902.

ORDER THEREON.—In the absence of a clear exemption, the plaints or applications are under the provisions of the Court Fees Regulation of 1900, chargeable at present with the Court fees. As process fees are to be charged under the Revenue Rules only when a special paid agency is employed, Government are pleased to direct that processes in such cases should invariably be served only by the ordinary taluk or village servants.

2. To relieve these village servants when claiming miras, from the necessity of having to pay Court fees, the Government are pleased to direct that under Section 42 of the Regulation, the Court fees leviable on such plaints and petitions be remitted. The following notification will therefore be published in the *Gazette* :—

NOTIFICATION.

No. R. 3300, dated 1st February 1902.

In exercise of the powers conferred by Section 42 of the Mysore Court Fees Regulation, 1900, the Government of Mysore are pleased to direct that the fees due according to the 1st or 2nd Schedules of the said Regulation, on the following class of documents be remitted :—

" Plaints or applications from the minor village servants referred to in Government Notification No. 1677—R. 540, dated 10th August 1897, namely, talavars, totis and nirgantis, for the recovery of miras due to them."

Secy. to Govt., Gen. & Rev. Depts.

(1) Letter No. 81, dated 23rd August 1901, from the Inspector of Agricultural Banks in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.

I have the honor to report that at present there is much unnecessary correspondence between the Taluk Treasuries and Agricultural Banks as regards the amount to be paid half-yearly by each Bank towards interest due to Government. This must happen as the Taluk Treasuries maintain no separate register for the payments made by the Banks from time to time. Under the Government Savings Bank Rules, no interest is calculated upon any sum paid after the 4th of each month. One of the reasons for this procedure is, I believe, to facilitate calculation of interest. As the interest due to Government by the Banks is payable every half year by 30th June and 31st December, I would suggest that no interest be calculated upon all payments made by Banks after the 15th June and 15th December to end of the month, to enable the Treasury Officer to calculate interest for the whole half year by the 20th June and December and apprise the Banks immediately of the amount of interest that will have to be paid by them, so that the Bank authorities may be in a position to pay into the Treasury the correct amount of interest due by the end of each half year.

2. I may also add that the Taluk officials make no demand of the amount due by the Bank until intimation is received from the Comptroller, which will be, as a matter of course, three or four months after the due date.

3. I enclose a form for adoption in the Taluk Treasuries and request the Government will be pleased to issue necessary instructions to the Deputy Commissioners on the subject if it meets with their approval.

(2). Letter No. 4147—361, dated 18th December 1901, from the Comptroller, Mysore Government, to the Secretary to the Government of Mysore, General and Revenue Departments.

In acknowledging the receipt of your No. R. 1396, dated 21st September 1901, forwarding for my opinion copy of letter No. 81, dated 23rd August 1901, from the Inspector of Agricultural Banks suggesting for approval of Government certain modifications in the existing procedure of calculating interest on the loan made to Agricultural Banks, with a view to avoid delay in the demand and recovery of interest due half-yearly from the Banks, I have the honor to state that the suggestions of the Inspector of Agricultural Banks reduce themselves to the following :—

(1) To prescribe a form of register for such loans for maintenance in the Taluk Treasuries for the purpose of calculating the interest due at the end of each half year.

(2) To calculate no interest on the payments made by the Banks between the 15th and 30th June and 15th and 31st December, to enable the Taluk Treasuries to have sufficient time to calculate the interest due for the half year and demand the amount on the 1st of the succeeding months.

With regard to the first of these I beg to state that a register in some form or other ought to have been made in the taluks and districts that made the loans and, if not hitherto maintained, it was a serious omission. The form proposed by the Inspector appears to me to be unsuited for the purpose as it renders necessary the calculation of interest on each item of transaction during the half year (and such transactions are frequent and numerous) and entails much extra work on the Treasury establishment. I therefore submit herewith a form which makes the calculations of interest simpler, interest being calculated only at the end of each half year and not after each and every transaction. Any error in the calculation of the period for which interest is due can be detected at once from the sixth column set apart for period, the first half year of the official year always consisting of 184 days and the second 181 days except in leap years.

In view to further simplification of calculation I would suggest that the Banks may be directed to make repayments only in multiples of Rs. 10 and the Treasuries instructed to refuse them if made in fraction of that amount. Calculation of interest being thus simplified, there appears to be no necessity for any exemption from interest of the kind which the Inspector recommends.

No. R. 3302—11, DATED BANGALORE, 1ST FEBRUARY 1902.

ORDER THEREON.—The suggestions made by the Comptroller, Mysore Government, and the form of register recommended by him are approved. This register will at once be opened and regularly maintained in all the Taluk Treasuries, having transactions with Agricultural Banks. It facilitates the recovery of interest due on the loans granted by Government to Agricultural Banks.

A copy of the register will be sent by the Amildar to the Deputy Commissioner, before the end of July and January of each year, for scrutiny and issue of necessary instructions.

Letter No. 943, dated 29th April 1899, from the Deputy Commissioner, Mysore District, submitting a copy of the register kept in the Excise Department for the purpose of recording the results of inspection made by officers with a view to check and scrutinize the work of the subordinates of that Department, and recommending the maintenance of a copy of the same register in each village for a similar use by the Revenue officers visiting the villages during their Jamabandi or other tours.

(2) Government Order No. 5906-72—R. 2093, dated 8th February 1901, inviting the opinions of the other Deputy Commissioners on the subject, as also the following replies:—

770	27th June 1901 ...	Do Hassan.

No. R. 3371-411, DATED BANGALORE, 4TH FEBRUARY 1902.

ORDER THEREON.—Except the Deputy Commissioner of the Bangalore District, who doubts the ultimate utility of the register, all the other Deputy Commissioners are in favor of its introduction. There are many things in a village which deserve the particular attention of the village officials, such as sanitation, water-supply, collection of revenue, boundary marks, village tanks etc., which are generally neglected and no improvement is attempted unless written orders are issued. Verbal instructions given at the time of local inspection are apt to be forgotten and the neglect is not easily discovered at the subsequent inspection in the absence of a register of the kind proposed, nor can an inspecting officer find at his inspection what points were noticed on a previous inspection either by himself or by another officer. The register is also intended to serve as a check on the inspecting officers as it will show whether the village was inspected, how often and whether it had its due share of attention by the officer concerned.

2. On a consideration of these facts Government resolve to introduce the register with effect from the 1st March 1902. The patel will be the custodian of it and he must produce it before the inspecting officer of any Department of the grade of Deputy Amildar and above, including shekdars and Police Inspectors, whenever he visits the village, and should give his prompt attention to the remarks made, obtaining the orders of the Amildar where necessary in case of inspection by an officer of other than the Revenue Department. The remarks will usually be made in the Kannada language in the register and where the patel is illiterate, he should acquaint himself with the contents with the help of the shanbhog or other educated person in the village. It is also trusted that the officer who records the note will explain the substance of it to the patel.

3. The specimen copy of the register will be forwarded to the Superintendent, Government Press, with a request that he will cause the required number of copies to be printed and supplied to the Deputy Commissioners on proper indent, for supply, without any recovery of cost to all the patels.

Letter No. 344, dated 2nd November 1901, from the Deputy Commissioner of Tumkur, recommending the restoration of the Navilkunte tank in the Pavagada Taluk.

No. R. 3490-98, DATED BANGALORE, 12TH FEBRUARY 1902.

ORDER THEREON.—The facts gathered from the papers submitted by the Deputy Commissioner are :—

Navilkunte is a minor tank situated in Survey Number 199 of Pavagada kasba. It has an atchkat of 21 acres and 17 guntas of wet land assessed at Rs. 43, and 13 acres and 28 guntas of dry land assessed at Rs. 2. Of the total atchkat, only an extent of 9 acres and 29 guntas assessed at Rs. 18-12-0 is owned by Dharanappa, the rest being unoccupied. In January 1884, when Dharanappa obtained by dharkhast, Survey Number 224, measuring 19 acres and 7 guntas and assessed at Rs. 19, the Deputy Commissioner permitted him to repair at his own cost the tank which had breached, and to utilize its water for the cultivation of the land, the tank continuing as Government property. The tank which he repaired breached again in 1899, and the same person again offered to repair it if remission of ¼ assessment should be given, or to take up lands (including those that he had resigned owing to insufficiency of water) on full assessment, if Government repaired it, and requested that if either course could not be followed, the lands might be given to him on dry assessment.

The tank is situated close to the road at 2 miles from Pavagada, and if repaired would bring additional revenue to Government and also be useful to travellers and cattle.

The Executive Engineer who was consulted, states that it is not profitable to Government to undertake the work in ordinary seasons as it would cost about Rs. 800. The Deputy Commissioner who has personally inspected the tank is of the same opinion and recommends that Dharanappa be allowed to restore the tank, and the lands comprised in the atchkat be granted to him on "Chowthayi" tenure.

2. Under the above circumstances, the Deputy Commissioner's recommendation is sanctioned. A reasonable time should be fixed within which Dharanappa should restore the tank. He should be permitted to enter on the unoccupied lands only after the tank has been restored and the work is certified by an officer of the Department of Public Works as properly executed. A mutchalika to this effect should be taken from Dharanappa. The final result of the action taken in this case should be reported to Government.

Letter No. C. 68, dated 12th July 1901, from the Deputy Commissioner, Kolar District.

No. R. 3486-7, DATED BANGALORE, 12TH FEBRUARY 1902.

ORDER THEREON.—One Ramanna, a landholder residing in kasba Gudibanda, prays for permission to restore at his own cost the breached tank (kunte) known as "Dharanammana Kunte" in the village of Muthyalaiyanadinne, Gudibanda Sub-Taluk. He further agrees to act up to the rules in force on the subject and to construct the tank in the manner and according to the estimate fixed by the Government, and prays for "chowthayi" remission on the lands brought under wet cultivation, or dry rates being fixed on all the lands, the submerged area also being included. The tank has an atchkat of 2 acres and 34 guntas yielding a revenue of Rs. 10-8-0.

It is reported that by its restoration 7 more acres of land would be brought under wet cultivation and the revenue to Government increased by Rs. 30. The principal raiyats of the village have no objection to Ramanna being allowed to repair the tank, as no one else in the village is either able or willing to do so. The work is reported to be one not likely to affect any other private or Government work of irrigation and of some convenience to the villagers in other ways also. The cost is said to be Rs. 428, and the tank is too small to be taken up and restored by Government.

2. The permission to restore the tank prayed for and recommended is granted. The lands actually converted into wet by the applicant, including those in his occupation, may be held by him on $\frac{3}{4}$ths assessment. This concession does not apply to others holding lands under this tank, and these lands should be assessed at the full wet rates. The tank being a small one and the cost of repair heavy, Government are further pleased not to impose any limit of time to the "chowthayi" remission. A time should, however, be fixed within which the work should be completed and the other conditions of the rules in force also should be complied with.

3. In conclusion, Government observe that the delay in the disposal of this case is not satisfactory and they expect Deputy Commissioners to pay prompt attention to such applications.

ORDER THEREON.—Recorded.

The importance of keeping the boundary marks has been insisted upon frequently enough. The District and Revenue Officers must realise the necessity for systematic inspection and for seeing that the orders issued for repairs and rectifications are duly carried out in each case. Mere issue of orders either to Taluks or Village Officers is of little or no practical use unless the Deputy Commissioners and other officers satisfy themselves by thorough-going tests and inspections that they have been complied with.

EXCISE

Proceedings of the Government of Mysore.

READ—

Report on the Administration of the Excise Revenue in the Mysore State for the year 1900-01, received with letter No. 4070-177, dated 23—24th December 1901, from the Excise Commissioner in Mysore.

No. 12723-33—Ex. F. 4-1901, DATED BANGALORE, 1ST FEBRUARY 1902.

ORDER THEREON.—The report read above has been prepared in a condensed form in accordance with the orders of Government recently issued. A further curtailment in future years may be looked for from the fact that there would then be no need for a repetition of the useful information regarding the system of Excise administration in force in the State, contained in the report under review.

2. The revenue from all sources aggregated Rs. 37,36,887-8-10, against Rs. 36,29,233-11-7 in the preceding year. The bulk of this was contributed by arrack and toddy, the former of which showed a falling off of Rs. 77,205-7-10, which was more than compensated for by a rise of Rs. 1,81,212-1-3 under the latter. Early steps should be taken to recover as much as possible of the heavy outstanding arrears of Rs. 32,339-3-2 under "Rent of Arrack Vend Farms and Separate Shops."

3. The new Excise Regulation and a large body of important Rules thereunder have been passed and promulgated since the close of the year under retrospect, as also a rule bringing Akki Bhoja within the purview of the Excise Laws, and these measures are all expected to lead to beneficial results. So too a set of carefully thought-out instructions concerning the satisfactory settlement of the long pending and vexed question of inamdars' claims to toddy revenue.

4. It is a question for consideration whether a decrease under arrack in favor of a corresponding increase under toddy, which is presumably a weaker and less harmful drink, is not more a matter for gratification than for regret.

5. On this and on several other matters, the proposals promised by the Excise Commissioner are awaited, and will, on receipt, receive due consideration.

6. Artificial reproduction does not seem so far to have been quite a success, the only good and remunerative plantation deserving prominent mention being the large one raised by a private individual in the Bowringpet Taluk of the Kolar District. The submission of a consolidated detailed report of the action taken up to date in this matter and of what is definitely proposed to be done in future, should be expedited.

7. An early completion of the exhaustive lists of date reserves, on which work the Deputy Excise Commissioner has for some time past been specially employed, is desirable and the Local Revenue officers should give him in this important work their ready and hearty co-operation.

8. The revision of establishment recommended by the Excise Commissioner is under the consideration of Government.

9. The Excise Commissioner's complaint *anent* the inadequacy of punishments awarded by Magistrates in cases of offences against Excise Laws, does not seem to be without some force and will be brought to the notice of the Chief Court for such action as they may deem fit to take.

10. The administration of the Department continued to be efficient under Mr. Purnaiya, whose remarks regarding the good work done by the officers under him have been noted with satisfaction.

(1) Government Proceedings No. 6695-703—Ex. 241, dated 20th January 1898, issuing instructions about the grant of lands containing date trees for cultivation, pending the preparation of complete lists of "date reserves."

(2) Docket No. 53, dated 30th August 1901, from the Deputy Commissioner, Chitaldrug District, submitting for information of Government, copies of correspondence between himself and the Excise Commissioner about the prohibition to grant for cultivation any Government lands containing date trees until the lists of "date reserves" in all the taluks are prepared and published.

READ ALSO—

Correspondence ending with the Excise Commissioner's letter No. 4315—190, dated 4th January 1902, expressing his opinion in the matter.

No. 13777-85—R. F. 144-93, DATED BANGALORE, 20TH FEBRUARY 1902.

ORDER THEREON.—In inviting the attention of the Deputy Commissioners of Districts to para 2 of Government Proceedings of the 20th January 1898, the Excise Commissioner directed that all applications for cultivation of lands containing date trees should be sent to him in the first instance so as to enable him to refer such applications to the lists of "date reserves" existing in his office and to issue necessary orders without delay. The Deputy Commissioner, Chitaldrug District, thereon raised the question whether the circular order of the Excise Commissioner applied to all lands irrespective of the number of trees on them and their situation amidst cultivated fields. As the order issued by the Excise Commissioner seemed to conflict with the provisions of the Revenue Rules, the Excise Commissioner was asked to furnish his opinion on the question raised by the Deputy Commissioner, with special reference to Rule 41 of the Revenue Rules, which directs that the occupancy of any unoccupied survey number, *not specially reserved*, should at once be granted to applicants either free of charge or by public sale.

2. In reply the Excise Commissioner suggests that till lists of "date reserves" are prepared and published the following procedure may be adopted :—

> No lands containing date trees shall be granted for cultivation without consulting the Excise Divisional Officer, who shall, on receipt of the reference from the Amildar, inspect the lands and communicate his opinion to such Amildar within fifteen days from the date on which he receives the reference from the Amildar, this limit being fixed to save delay in the disposal of darkhasts. The Amildar may then dispose of the case himself, or if it has to go to the Deputy Commissioner, submit the Excise Officer's report also along with his own.

3. Government are not, however, in favor of issuing an order of this kind as an *ad interim* measure. Para 2 of Government Proceedings of 20th January 1898 is sufficiently clear, and no cases have hitherto been brought to notice, of any injudicious exercise by the Deputy Commissioners (who, it must be remembered, are also in charge of the Excise Department of their districts) of the discretion thereby vested in them. Government trust that till the "date reserves" are finally determined and lists published no grants of land will be made in which the conditions laid down in the Government Order (No. 6695-703—Ex. 241, dated 20th January 1898) referred to above are not fulfilled.

4. The Excise Commissioner also brings to notice that a large number (33) of lists of "date reserves" which have been sent to the Amildars for their test and opinion before final publication, is still pending with them. The attention of the Deputy Commissioners is drawn to Government Proceedings No. 11123-31—R. F. 132-93, dated 4th January 1902, and to para 7 of the Government review of the Excise Administration Report for 1900-01, concerning the desirability of expeditious completion and publication of lists of "date reserves." It is hoped that this work will be accomplished without the least unnecessary delay and that the Local Revenue Officers will give their willing and immediate co-operation in this important and pressing business.

PETITION

Proceedings of the Government of Mysore,

No. PET.—1493-1500, DATED BANGALORE, 3RD FEBRUARY 1902.

ORDER.—A case having recently come to notice in which the shanbhog of an Inam village was alleged to have kept back some of the village accounts, and doubts having arisen as to the remedy open to the Inamdar for compelling production of these accounts, Government observe as follows.—

2. Under Section 16 of the Land Revenue Code, an Inamdar is bound to keep the registers, accounts, and other records prescribed by Government and to deposit with the Deputy Commissioner true copies of such as may be required. If he fail to do so, the Deputy Commissioner can cause the same to be prepared at the cost of the Inamdar. Now, in order to enable the Inamdar in the first instance, and the Deputy Commissioner in the event of his making default, to prepare them or get them prepared, a reference to the records of the previous years will generally be indispensable, and it is to the village accountant, who has charge of the latter under clause (2) of the said section, that the Inamdar or the Deputy Commissioner will have to look for the delivery of the old records.

3. Then again, the records in question being such as are maintained for a public purpose in the discharge of a statutory duty, are obviously "public" papers or records, the property of Government, for the purposes of Sections 24 and 25 of the Land Revenue Code, and their production can be enforced by the Deputy Commissioner, either of his own motion or on the application of the Inamdar who has the right to control their preparation and custody, in the same manner as the production of records prescribed for Government villages.

READ—

Petition of Appeal No. 557 of 1900-01, from Basavannappa of Kasba Shikarpur, against the order of the Deputy Commissioner, Shimoga District, cancelling the sale of S. No. 53, measuring 10 acres and 29 guntas and assessed at Rs. 29, of Churchagundi village for arrears of revenue due thereon for the year 1898-99.

(2) Letter No. 359—303, dated 8th October 1901, from the Deputy Commissioner, Shimoga District, reporting on the above.

(3) Records of the case.

Facts of the case.

For arrears of revenue amounting to Rs. 73-3-3 due by Nagonda Virappa on his S. Nos. 31, 53, 82, 92, 93—1 and 93—2 of Churchagundi village for the year 1898-99, the lands were declared forfeited on 4th August 1899 and were, after the usual formalities, brought to sale on 22nd September 1899. In the sale which was held by the Taluk Sheristadar, S. No. 53 was bought by the appellant for Rs. 225 and the sale of the other lands was not proceeded with, the sale proceeds of S. No. 53 more than covering the arrears due. The appellant paid up the sale amount the next day after the sale.

(2) On 27th September 1899, one Rachavalli Virappa who was the mortgagee of S. No. 53 petitioned the Assistant Commissioner in charge of the taluk for the cancelment of the sale and urged that he was ignorant of the sale proceedings till then and that the land which was worth Rs. 500 had been sold for less than half the value. On 30th April 1900, the Assistant Commissioner confirmed the sale and rejected Rachavalli Virappa's application on the grounds that the sale proceedings had been regularly held, that the applicant had not registered [illegible] in the Register for special notices, and that it was evident from the Harajpatti that verbal intimation of the sale had been given to the applicant by the khatedar, the patel and the shekdar.

(3) On appeal, the Deputy Commissioner cancelled the sale on 10th September 1900 on the grounds that the estimated value of the lands had not been specified in the Harajpatti and that the mortgagee had suffered severe loss by the sale of the land free of encumbrances As a condition precedent to the cancellation of sale, the Deputy Commissioner laid down that Rachavalli Virappa should pay the appellant, within a month, the sale amount with interest at 12 per cent as well as the kandayam for the year 1899-1900. This condition is reported to have been complied with. In his letter dated 23rd March 1901, the Deputy Commissioner justifies his order under Section 184 of the Land Revenue Code.

No. PET.—1528-35, DATED BANGALORE, 11TH FEBRUARY 1902.

ORDER THEREON.—The Government are not satisfied that the Deputy Commissioner used his discretion rightly in cancelling the sale. There is no provision in the Land Revenue Rules which renders compulsory the entry in the Harajpatti, of the estimated value of the lands sold, nor is the omission of such entry a material irregularity within the meaning of Section 184, Land Revenue Code. The Government observe further that there is no provision of law for compelling the mortgagee to pay the purchaser the purchase money with interest and making this condition precedent to the cancellation of sale. As, however, this condition is reported to have been complied with and as considerable time has elapsed since the date of cancellation, the Government will not interfere with the Deputy Commissioner's order.

The appeal is rejected.

C. SREENIVASIENGAR, ESQ.

Appeal No. 3 of 1889-1890.

Appellant.—Appajiah of Kyalnur, Kolar Taluk, (since deceased) by his son Ramappa.

Subject.

Claim for the remission of a portion of the kayamgutta of Kyalnur village, Kolar Taluk.

Facts of the Case.

By a Nirup dated 11th October 1831, Kyalnur and 13 other villages in the old Jangamkote Taluk were granted to one Desakulkarni Venkat Rao on a consolidated kayamgutta of 891 varahas and 7 hanas per annum. The Nirup recites that the gutta above fixed was based on the actual revenue realized in the 14 villages during the year Vikruti (1830-31) which included not only the ordinary land revenue but also the revenue derived from Bajebab, Sayer, Shendikhana etc., and amounting to 108 varahas and 6 hanas or Rs. 311-9-2.

2. In November 1878, Kyalnur was purchased by the appellant in a revenue sale, the other 13 villages continuing in the enjoyment of Mahadeva Rao, a descendant of the original grantee.

3. Although the villages were thus broken up, the gutta was not duly apportioned on Kyalnur till 1389, when, in addition to the gutta of 395 varahas and 3 hanas leviable on Kyalnur on account of land revenue, a sum of Rs. 249-3-9 was made leviable on account of the items of Sayer, Shendi, Arrack and Forest. The appellant who was called upon to pay the arrears of the latter items from 1876-77 declined to pay them on the ground that he was not in receipt of the revenue under these items. Coercive measures having thereupon been adopted by the Deputy Commissioner, Appajiah appealed to Government urging that he was not bound to pay the arrears. At

the hearing on 12th February 1891, Appajiah expressed his willingness to pay the amount due under "Forest," *viz.* Rs. 6-7-6 per annum, but objected to pay the amount due under the 3 other items. In their decision dated 14th February 1891, the Government decided that the amount under "Forest" could be levied from 1878-79, and called for further information regarding the levy under other items.

4. Mahadeva Rao, the holder of the other 13 villages, complains that, while his share of the gutta (including the Sayar and Abkari dues) has been recovered, the share due by the appellant has remained unrecovered and represents that he is entitled to a refund in case Appajiah is exempted from payment.

5. It appears from the report of the Deputy Commissioner that the appellant enjoys the mohatarfa revenue of Kyalnur village.

Decision.

The question raised in this case is one of great importance and has engaged the attention of Government for several years past.

2. The uniform practice of the State has been for the Government to reserve to itself the fullest power to abolish existing items of taxation throughout the State including alienated villages, without any liability to compensate the holders of alienated villages for loss of revenue from any of the abolished sources which might have been in their enjoyment previously. This power has been exercised from time to time and so far as Government is aware, no holder of an alienated village was ever regarded as having a claim for compensation from the Government on the ground of the abolition of any particular source of his income as the result of the general abolition of the same throughout the State.

3. So long ago as 1862, when the kayamguttadar of Thumbenahalli in the Bangalore Taluk applied to the Commissioner for the deduction, from the gutta, of the amount of Bajebab taxes abolished in 1860 throughout the State, the Commissioner (Mr. Bowring) ruled that no deduction could be made from the gutta, but that the kayamguttadar would be allowed to revise the mohatarfa taxes on the scale adopted in Government villages, (*vide* letter dated 12th May 1862, No. 80 from the Secretary to the Commissioner, to the Superintendent, Bangalore Division). This principle has been uniformly enforced and it is thus clear that if Government abolishes any items of revenue, the holder of an alienated village who is bound not to levy it, has no right to claim compensation on account of loss thereby caused.

4. When, however, the Government *manages* a particular item of revenue for a holder of an alienated village, it should of course make over to him the net proceeds it realizes. This principle was followed in 1873, when by Proceedings No. 3697—R. 30, dated 8th October 1873, the collection of Sayer and Abkari revenues in alienated villages was undertaken by Government.

5. So much as regards the general question.

6. On a careful construction of the Nirup issued in this case, it must be held that the tenure of the villages is for an aggregate gutta of 891 P. and 7 H. How this amount was arrived at in 1831 is of no consequence now. The gutta cannot be reduced because Government has since abolished some of the items, nor can it be increased because some of the existing items show a large increase. As regards toddy revenue, the claim of the kayamguttadar should be disposed of under Government Proceedings No. 2074-83—R. F. 166-92, dated 2nd August 1901, for the period since 1892-93.

7. The apportionment of gutta made by the Inam Department in 1889, must, in the absence of any protest from the appellant, be considered as equitable, and the Deputy Commissioner will proceed to recover the arrears of gutta of Kyalnur village as fixed by the Inam Department. The arrears which have swollen to about Rs. 5,000 during the long period the case was pending, will be collected in five yearly instalments.

No. 1600—P. F. 68-94, DATED BANGALORE, 21ST FEBRUARY 1902.

Copy of the above is forwarded to the Deputy Commissioner, Kolar District, together with the records received with his letter No. 662—150, dated 15th May 1892.

Petition No. 168 of 1899-1900.

Appellant—Shadagopiengar, retired Head-quarter Inspector of Police, Bangalore.

Subject.

Appeal against the resumption of Survey No. 84 of Kogile village, Yelahanka hobli, Bangalore Taluk, by the Inam Department in 1879.

Facts of the case.

In September 1865 the Commissioner of Mysore (Mr. Bowring) granted under Commissioner's notification, dated 22nd July 1846, to Singiengar, late Anche Bakshi and father of the appellant, 12 kandis of dry waste land on jodi tenure for having planted 553 avenue trees between the 6th and 9th mile stones on the Bangalore-Madras road. At the Inam Settlement in July 1876, the Inam Superintendent confirmed to Venkatarangiengar, brother of the appellant, as Dharmadaya Inam, 8 kandis of dry land with a jodi of Rs. 23 in the village of Dyavasandra, Bangalore Taluk, and 4 kandis of dry land with a jodi of Rs. 12 in the village of Kogile in the same taluk, subject to the condition that 111 trees being the number found deficient should be planted within six months. On the default of the inamdar to comply with the above condition, even after the grant of an extension of time, the inam in Kogile village was resumed by the Inam Superintendent in July 1879; but the resumption was not communicated at once to either the Deputy Commissioner or the inamdar. In February 1896, the Survey Superintendent communicated the order of resumption to the Deputy Commissioner and requested that the arrears of the difference between the assessment and the jodi on Survey No. 84 (measuring 22 acres and 5 guntas and assessed at Rs. 23-8-0) might be collected. The appellant thereupon claimed that the inam was personal and not Dharmadaya and further represented that it was inequitable to collect the assessment of previous years, as he had had no notice of the resumption. The Deputy Commissioner declined to interfere with the Inam Settlement and directed the recovery of the arrears by coercive process. The land was accordingly brought to sale and as there were no bidders was bought in on behalf of Government for a nominal price. Hence this appeal to Government.

Decision.

It is clear from the records relating to the grants of the inam in 1865 that the grant was for the maintenance of 553 avenue trees on the Bangalore-Madras road. The claim of the appellant that the inam is a personal one cannot therefore be allowed.

2. The inam was resumed in 1879 on account of the failure of the grantee to plant the deficient number of trees. The Government apprehend that the inamdar's default in 1879 was due to the scarcity of labor and other abnormal circumstances at the time owing to the prevalence of famine in 1876-78 and are willing to grant the appellant one more chance. The land (Survey No. 84) will be restored to the appellant as a Dharmadaya Inam, on a jodi of Rs. 12 with the condition that the deficient number of trees (111) is made good within the next six months. The grant being one made under the Rules published as Appendix G of the Land Revenue Rules of 1899 is further subject to the conditions prescribed in paras 7 and 8 of the Rules. The excess, if any, in the inam will be disposed of under the Standing Orders on the subject.

Petition of appeal No. 2157, dated 16th April 1901, from Hanumanna of Chowlu Hiriyur, Kadur Taluk, against the order of the Deputy Commissioner, Chitaldrug District, cancelling the sale to the petitioner of S. No. 38 of Bagasettihalli village, Hosdurga Sub-Taluk, and confirming the second sale of the land to one Bhairappa.

2. Correspondence ending with letter No. 540, dated 20th December 1901, from the Deputy Commissioner, Chitaldrug District, reporting on the above.

No. PET.—1621-8, DATED BANGALORE, 22ND FEBRUARY 1902.

ORDER THEREON.—This was a case of a land bearing Survey No. 38, 20 acres in extent with an assessment of Rs. 5-8-0, which was Government waste and ordered to be sold as there were two applications for the same. The sale was held by the shekdar and the land knocked down to the highest bidder, *viz.*, petitioner, for Rs. 50-12-0. The sale was duly confirmed by the Deputy Commissioner.

2. Meanwhile another person, Bhoganna of Chowlu Hiriyur, put in a petition alleging irregularities on the part of the shekdar who conducted the sale. The Deputy Amildar enquired into the matter and reported that there were no irregularities in the sale, but remarked incidentally that the land in question might fetch a higher price if sold again. After some correspondence between the Deputy Commissioner and Deputy Amildar, re-sale was ordered, and in the second sale it was knocked down to a third party for Rs. 160. The first sale took place on 23rd November 1900 and was confirmed by the Deputy Commissioner on 15th December 1900. The second sale was held on 11th April 1901 and confirmed by the Deputy Commissioner on 23rd April 1901.

3. Government consider that the Deputy Commissioner has not used proper discretion in cancelling a sale which had been properly conducted and which had been confirmed by himself. That the land would fetch more than what was realised at the sale should not be made a ground for setting aside a sale in regard to which no irregularity had been proved. Possibly there was an idea that the shekdar entrusted with the sale had been influenced to let the land go for a price below what it was worth. But the setting aside of a sale duly held and thus putting innocent parties to loss, is not a proper course to be adopted in such cases.

4. As, however, the land has been made over to the purchaser at the second sale, the Government will not cancel it and this appeal will be rejected.

Proceedings of the Government of Mysore,

Government Proceedings No. 37-8—4, dated 14th April 1892, directing the stoppage of feeding in the Government Anna chattram at Melkote, Seringapatam Taluk, in view to accumulate sufficient funds for its re-construction on a suitable site, the building having become utterly dilapidated.

Correspondence ending with letter No. 181, dated 14th January 1902, from the Deputy Commissioner, Mysore District, in the matter of the re-construction of the chattram at Melkote.

READ ALSO—

Memo dated 23rd January 1902, by the Deputy Secretary to Government, Muzrai Department, regarding the re-construction of the chattram and the revival of feeding therein.

No. 1188-9—Muz. F. 34-93, dated Bangalore, 7th February 1902.

ORDER THEREON.—As the chattram building at Melkote was in a state of disrepair, the feeding therein was directed to be stopped in 1893, under orders conveyed in Government Proceedings No. 37-8—4 read above, in view to accumulate sufficient funds for its re-construction on a suitable site. Since then the daily feeding in the chattram has been entirely stopped except for about a fortnight during the Vairamudi festival every year when it is conducted in a building called "Nammalwar Sannidhi." The Deputy Secretary to Government, in his memo read above, states that the old building has completely come down and that the question of its re-construction may be postponed until further consideration is given to the question of the site on which the new chattram should be built; but urges the revival of feeding in the meanwhile, as Smartha and Madhwa pilgrims resorting to Melkote are reported to be greatly inconvenienced for food at present.

2. Two alternative plans have been received, one for converting into a chattram the existing "Nama Tirtha Totti" near the kalyani, and the other for constructing a new building on a site opposite to "Namadakatte Garden." The Government are of opinion that the question of re-constructing the chattram may be deferred for the present until the question of site is finally decided.

3. As the savings effected by the stoppage of daily feeding in the chattram for nearly eight years must amount to a fairly large sum, sufficient to meet the cost of its re-construction, the Government are of opinion that the revival of the feeding of pilgrims need no longer be postponed, and they accordingly direct that the feeding be started at once, the building known as Nammalwar Sannidhi, referred to above, being used for the purpose. Government are also pleased to sanction the marginally noted establishment for the revival of feeding in the chattram. It is reported that there is already a Smartha Paricharak on Rs. 3. His pay is raised to Rs. 5 as per scale now sanctioned. The other two hands, *viz.*, a Madhwa cook and a jhadmali, should be entertained immediately and the date of their entertainment reported to this office for communication to the Comptroller.

	Rs.
One Madhwa cook	... 5 per mensem.
One Smartha paricharak	... 5 per mensem.
One jhadmali	... 3 per mensem.
Total	.. 13 per mensem.

4. It is observed that some cash payments amounting to Rs. 4 a month and a rice grant at the rate of half a seer per day are being made to the marginally noted Muzrai temples for "Puja" and "Naivedya." These payments may be continued as heretofore.

	Rs.
Chattram Vinayakadevaru	... 2 per mensem.
Do Anjaneyadevaru	... 2 per mensem.
Chikkayyanakolala Venkataramanaswami temple.	½ seer of rice without condiments per day.

5. Out of the monthly Tasdik grant of Rs. 58-11-0 allotted to this chattram, deducting the establishment charges and other cash payments amounting to Rs. 17 sanctioned in paras 3 and 4, there remains a sum of Rs. 41-11-0 per mensem, for

feeding purposes. The cost of half a seer of rice payable to the Sri Chikkanayanakolada Venkataramanaswami temple, referred to in para 4 above, should also be met from the last mentioned amount and the balance utilized for feeding *bona fide* pilgrims.

6. No parpattegar will be appointed for the chattram, but the peshkar of the Muzrai Institutions at Melkote should supervise the affairs of the chattram in addition to his other duties, assisted by the Madhwa gumasta of the Sri Narayanaswami temple, who should maintain the accounts of the chattram. As a sum of Rs. 2 is being paid for the Puja of Chattram Anjaneya every month, the worshipper thereof should be asked to do Naivedya Samarpane and Gandhakshite business also. These five servants, *viz.*, the gumasta that keeps the accounts, the cook, the paricharak, the worshipper and the jhadmali, may be allowed one meal a day in the chattram.

7. The Deputy Commissioner is requested to give due effect to the foregoing orders and report for the information of Government the date on which the feeding is started.

PUBLIC WORKS

Proceedings of the Government of Mysore,

READ—

The following papers on the revised estimates for the Cauvery Falls Power Scheme Works—

(1) Note, dated 15th October 1901, by the Chief Engineer.

I forward herewith an estimate amounting to £ 329,601 for the completion of the Cauvery Power Scheme, together with notes by the Deputy Chief Engineer and the Resident Engineer.

When I wrote my report dated 8th December 1900, none of the plans of the machinery buildings had been received from the contractors. The strength of the contractors' establishment, for which quarters had to be provided, was not known, and no experience had been gained as to the cost of the erection of the transmission line, consequently, my figures were in many cases only approximate, but I must say that I thought the total amount would be fairly correct, as I anticipated that any excess there might be on some items would be covered by savings on others: but unfortunately the savings are practically *nil*, while the excesses are very considerable.

The causes of excesses are explained in the remarks column of the estimate; but it will be as well for me to show in greater detail the reasons for the larger excesses. These are:—

1. Buildings for Machinery at Power Station. Excess Rs. 37,584.—When my report was written, the size and nature of these buildings was not known. I calculated the cost on assumed dimensions and on an assumed rate per square foot of plinth area, and I was very much below the actual cost. When the plans were received from the contractors, detailed estimates were prepared. These far exceeded the sum entered in my report as the buildings were of a very complicated nature. But these latter estimates have been further exceeded by Rs. 37,584, owing to the depth the foundations had to be taken to find rock and to difficulty in the transport of materials and the unhealthiness of the locality.

2. Transmission Line.—The cost of this was estimated as carefully as possible with the data available. But no work of the kind having been carried out before in this country, it was impossible to get accurate results, for instance, contractors offered to prepare the poles for annas 8 and Re. 1 per pole, but when the work was actually put in hand it was found impossible to do it for even Rs. 2. The Madras Railway Company increased their rates for carriage as the poles were prepared in Madras, and they refused to carry them as rough timber. Carriage of steel sockets was entered under another head in my report.

The cost of masonry works at river and other crossings could not be known, as the way of dealing with such crossings had not been settled by the experts.

The cartage of road exceeded greatly owing to the exceedingly difficult nature of the country. Much more rock was met with on the line than anticipated.

The cost of erection was under-estimated as it was thought that a great portion of it would be borne by the contractors, but only coolly labour was employed by them and by the Contract Agreement we are bound to supply unskilled labour free.

A considerable amount of timber had to be procured locally, the contractors for the supply of Australian wood having failed to supply sufficient wood of good quality in time; it is hoped that it will be possible to deduct part of the amount from their bill.

These with a few other smaller excesses bring the total cost of transmission line to Rs. 3,89,000 against Rs. 2,06,022 showing an excess of Rs. 1,82,978.

3. Distribution Buildings at Kolar.—These were very much underestimated by me in my report owing to the size, number and nature of the buildings not being known, no plans having been received from the contractors.

4. Inland Transportation and erection. Excess Rs. 99,340.—It was impossible to estimate this with any accuracy, the difficulty of carrying the heavy machinery by road has been very much greater than anticipated. A correct comparison between the figures given in my report and Mr. Hunter's estimate cannot be made as cost of many items has been differently distributed; however the result remains that there is an excess of Rs. 4,82,925.

In a work of this sort, it is quite impossible to foresee everything that will be required, and though Mr. Hunter's estimate has been prepared with great care and seems to include everything, I think it will be safe to allow Rs. 1,00,000 more. The total amount of the expenditure in India will then be Rs. 23,28,966 or £ 155,264 and the total cost of the Scheme £ 181,003 + £ 155,264 = £ 336,267.

In his letter dated 31st August 1901, Mr. Hunter proposes to charge part of the cost to revenue and this is approved by Captain deLotbiniere. I am of opinion that this is undoubtedly the correct principle to adopt, and the Examiner, Public Works Accounts, is of the same opinion.

The expenditure incurred during the first year of Maintenance, and during which period a revenue will be received, should certainly be charged against that revenue. Mr. Hunter has calculated the amount to be thus charged as £ 22,200 and that sum may be accepted, though it is impossible to tell exactly the amount that will be required for the first year's maintenance

The charges will therefore be—

Capital	...	...	...	£ 314,067
Revenue	...	...	...	£ 22,200
			Total ..	£ 336,267

I will now show that the increased cost of the Scheme will not materially affect the returns and in this connection the note of the Deputy Chief Engineer should be read.

When my report of 8th December 1900 was written it was intended to supply the Mines with 4000 H. P., but when the arrangements for distribution were worked out and the 4000 H. P. being distributed between the different Mines, it was necessary to increase the amount to 4185 H. P., and it was found that, that amount of Power could be supplied without any alteration to the plant or to any of the works. The amount of Power to be supplied now is therefore 4185 H. P. for an expenditure of £ 314,067 or £ 75·04 per H. P.

My report allowed for supplying 4000 H. P. at an expenditure of £ 287,390 or 71·84 per H. P., the excess is therefore only 3·20 per H. P., or 4·4 per cent per H. P.

Calculating the returns in the same way as in my report we get the following results:—

			£
Capital Charge	...	...	314,067
Revenue 1st year; 4185 × 29	...	..	121,365
Deduct—			
Remuneration to Taylor & Sons	...	...	1,000
Maintenance	...	...	22,200
Total Deduction		...	23,200

Net revenue 121,365—23,200=98,165 or 31·2 per cent against 37·9.

For the 2nd, 3rd and 4th year, the revenue will be 4185 × 18=75,330 and the deductions be:

Taylor & Sons	...	...	...	1,000
Maintenance	..	...	...	11,000
			Total	12,000

Net revenue—(75,330—12,000) £ 63,330=20·16 per cent.

For the 5th year the revenue will be 4185 × 24=100,440 and the deduction the same;

Net revenue is therefore

100,440—12,000=88,440=28·1 per cent.

For 6th, 7th, 8th, 9th, 10th years, revenue=4185 × 10=41,850 deduction as before.

Net income 41,850—12,000=29,850 or 9·5 per cent.

The revenue will therefore be 1st year 31·2 against 37·9 in report

2nd	20·1	21·3
3rd	20·1	21·3
4th	20·1	21·3
5th	28·1	29·7
6th	9·5	10·2
7th	9·5	10·2
8th	9·5	10·2
9th	9·5	10·2
10th	9·5	10·2

In these calculations no allowance is made for depreciation for the reasons given in the postscript to the note of the Deputy Chief Engineer and the sum payable to the Madras Government has been included in the £ 11,000 for Maintenance.

I am of opinion that after the 5th year, the cost of Maintenance may be considerably reduced as we shall then have trained men of our own on lower salaries.

I consider that notwithstanding the large excess on the original estimate, the results are eminently satisfactory, and I request sanction to the estimate as prepared by Mr. Hunter.

(2) Note, dated 24th September 1901, by the Deputy Chief Engineer.

The Resident Engineer has drawn out a complete estimate for the whole of the expenditure in India including one year's maintenance; this, though headed "Revised estimate" can barely be looked upon as such, as up to the present the Chief Engineer has had to work very

much in the dark, owing to the impossibility of obtaining the necessary plans and details on which to base a detailed estimate. His estimates have therefore been only approximate.

2. The Chief Engineer in his report to Government, dated 8th December 1900, page 37, gives a forecast of the probable expenditure, which he places at £ 287,390, and on page 39, he shows the return for the 1st year's working at 37·9 per cent of the capital outlay.

3. Before going into details I will show what results we may actually expect from the completed work, which is now estimated to cost £ 329,601, if the whole of the working expenses for the first year are included.

4. The amount of Power actually under provision is 4185 H. P. and this will be sold during the first year at £ 29 per H. P. The return to be expected from this is therefore 4,185 × 29 =£ 121,365 or a fraction below 37 per cent (36·82).

5. As mentioned above, the total estimate amounts to £ 329,601 against the forecast of £ 287,390 or £ 42,211 more than the forecast, but this estimate includes 185 extra H. P. and many items not provided for in the original forecast.

6. The Resident Engineer in his forwarding letter shows the main heads under which excesses have occurred, and in his detailed estimate every item is shown and the excess fully explained.

7. He also makes a suggestion in para 7 of his report with which I fully concur, *i. e.*, that the cost of certain items should be met from revenue from the Scheme during the first year's working, as by far the greater part of these items will be expended during this period. The amount to be so charged to Revenue comes to £ 22,200 and deducting this from the total of the estimate £ 329,601—22,200=£ 307,400 as the cost of the installation of the Cauvery Power Scheme. If we decide to do this, the capital cost is reduced to £ 307,400 as above and the return on the first year's working will then be 32¼ per cent *i. e.*, (4,185 × 29)—22,200= £ 99,165 and $\frac{9916,500}{307,400}$ =32·25. I anticipate that the original forecast estimate will not be exceeded by 7 per cent (and actually only by 2 per cent as we get 4·6 extra horse power, please see para 9 of this note), and may eventually be reduced to 6 per cent (or 1 per cent) as I anticipate large savings on the allowance originally made for sea and rail carriage. I make this suggestion, as by reducing our capital in this way we still show a grand revenue of 32¼ per cent on the first year's working and better revenue for all subsequent years. For instance, during the second year's working we sell 4185 H. P., 4185 × £ 18=£ 75,330, our operating and maintenance expenses will come to £ 11,000, leaving £ 75,330—11,000= £ 64,330, as revenue. Our capital being £ 307,400, this represents a return of 20·93 per cent on capital. The third and fourth years will be the same.

The fifth year=29 per cent.

The 6th, 7th, 8th, 9th and 10th=10·03 per cent, or an average for the 10 years of 17·41 per cent on a capital of £ 307,601.

The Chief Engineer's original forecast of returns on capital worked out as below :—

Chief Engr.'s forecast.		Forecast based on present detailed estimate.	
1st year	37·9 per cent on capital	1st year	32·25 per cent on capital.
2nd „	21·3 do	2nd „	20·93 do
3rd „	21·3 do	3rd „	20·93 do
4th „	21·3 do	4th „	20·93 do
5th „	29·7 do	5th „	29·00 do
6th „	10·2 do	6th „	10·03 do
7th „	10·2 do	7th „	10·03 do
8th „	10·2 do	8th „	10·03 do
9th „	10·2 do	9th „	10·03 do
10th „	10·2 do	10th „	10·03 do
	182·5		174·19
Average	18·25 per cent.	Average	17·41 per cent.

I allow an increase on the annual cost of maintenance :—

Now allowed ...	... £ 11,000
Original ..	... £ 10,685

Extra allowance=£ 315, and we still get a return of practically the same as originally estimated.

8. I cannot think this anything but highly satisfactory, considering the nature of the undertaking and the vast number of small details which could not be estimated for beforehand, also the multitude of obstacles which had to be met and overcome at any cost in carrying out the Scheme.

9. I may explain that the large revenue return now anticipated though on an increased capital, is due to our putting in 4185 H. P. instead of 4000 as originally estimated for. This extra 185 H. P. represents 4·6 per cent extra power. I consider we can therefore add 4·6 per cent to our original estimate. As shown in para 7, I allow we exceed the original estimate by 7 per cent deducting 4·6 per cent from this, we get a net excess per cost of H. P. installed of 2·4 per cent. To put it in another way we estimated it would cost £ 287,390 to instal 4000 H. P. or 287,390/4000=£ 71·8 per H. P. as now constructed we get 4185 H. P. for 307,601/4185 =£ 73·5 per H. P. This represents an excess per H. P. over original estimate of £ 1·7 or 2 per cent, *i. e.*, original cost=£ 71·8 per H. P. actual=£ 73·5, difference=1·7 or 2 per cent.

10. It is barely necessary for me to explain more fully than the Resident Engineer has already done in his estimate and covering letter, how the excesses occurred. It will be apparent to any one going through the comparative statement that it would have been utterly impossible to foresee and provide for all items.

11. One point which requires explanation is that referring to erection and maintenance, for which the contractors receive on generating and transmission plant £ 18,250 and on distribution plant $ 19,000^oo. When the term "Erection and Maintenance" was used by the State in drawing up the contract, it was intended to cover the whole cost of maintenance, *i. e.*,—

1. Superintendence.
2. Oilers and coolies.
3. Waste.
4. Oil.
5. All petty stores.

Since the American Engineers have reached India, I find that the accepted meaning of "Maintenance" is simply "Supervision" of the plant during running, and this is borne out by the figures entered in their estimates, *i. e.*, £ 18,250 and $ 19,000^oo respectively, which figures will barely suffice to pay the salaries of their staff, let alone supply items ii, iii, iv, v which, with "Probationers" comes to in this estimate for—

	Rs.
Hydraulic plant	13,160
Generating plant	39,600
Distribution plant	40,400
Total ...	93,160 or £ 6,211.

In the same way for erection we have had to supply considerably more labour than we anticipated.

12. Regarding the apparently abnormally large Indian expenditure of Rs. 22,28,996 against the Chief Engineer's original forecast of Rs. 8,70,000 (works in the country, such as dams and channels, etc.,) a perusal of his report (page 37) will show that this sum of Rs. 8,70,000 only provides for buildings and channels, apart of this we have had to provide and pay in India—

	£
for Erection and Maintenance ...	18,250
for Hydraulic ditto ..	2,824
for Distribution ditto .	3,900
also Rail carriage in India	5,000
	29,974 or Rs. 4,49,610

also for line erection and purchase and carriage of poles and cross-arms which actually cost Rs. 3,66,000 against his estimate of 1,84,000 which was not included in the sum allowed for buildings.

The other large items which swell the total are collected in para 5 of the Resident Engineer's forwarding letter.

13. In conclusion I may state that from information received from various experts, I am convinced that no undertaking of this nature in any part of the globe has up to the present been carried out within 20 per cent in excess of the original cost; this is the lowest I have heard of, and the average excesses run to from 40 to 50 per cent. I have shown we should, and I trust, will carry out the work for an excess of only 2 per cent, and from present indications we will be in a position to commence drawing revenue from our power within a few days of the date originally fixed, unless some act of God should delay the completion.

The revenue anticipated on the capital expenditure is also practically the same as that originally anticipated and on which the work was undertaken.

NOTE.—Regarding cost of maintenance, this has necessarily been guessed at, as experience only will enable us to arrive at an accurate figure. However, I anticipate that £ 11,000 per annum will be more than sufficient, on the understanding that nothing is charged for depreciation of plant.

I suggest this for the following reason ; when discussing the terms of the Agreement with Messrs. J. Taylor & Sons, they asked me why I did not extend the Agreement over a longer period than ten years, I replied that at the end of ten years large replacements of machinery might or might not have to be undertaken and that naturally we would revise our rates for power after the first decade in order to cover our outlay under this head. Messrs. J. Taylor & Sons appeared to consider this a fair proposal.

Under the circumstances why should we charge ourselves with depreciation.

---

(3) Letter No. 493, dated 31st August 1901, by the Resident Engineer, Cauvery Power Scheme Division.

I have the honor to submit herewith the revised estimate as above amounting to Rs. 22,28,966.

2. These figures include all probable expenditure, other than the prime cost of imported plant, (f. o. b.) at port of shipment with sea freightage, insurance and commission, as it is understood that inland railway haulage is being paid in this country, and adjusted by deduction from payments to the contracting companies, through the London Agents.

3. The total cost of the whole scheme is now estimated at £ 329,601, as under—

		£.
(i) Hydraulic plant (f. o. b.) less cost of the abandoned water ballast railway		16,815
(ii) Electric plant—		
(*a*) Generation and transmission	1,11,301	1,72,653
(*b*) Distribution	45,167	
(iii) Sea freight and insurance, etc.—		
Hydraulic plant	2,000	8,350
Electric plant (*a*)	5,000	
Electric plant (*b*)	1,350	
		1,81,000
(iv) Expenditure in India	Rs. 22,28,966	
	15	= 1,48,598
Grand Total ...		3,29,601

4. The savings on cost of plant will, it is anticipated, be more than outset the cost of extras due to deviations made in the specifications, etc., subsequent to acceptance of tenders, but no reduction has been made on this account in figures given with the one exception of the water ballast railway.

5. The excess cost of the project, above the sum computed by the Chief Engineer in his forecast, (general report, dated 18th December 1900, page 37) *viz.*, £ 287,390 is unfortunately very great, being no less than £ 42,210 and for this, the following items or heads of work are *mainly* responsible :—

	£.
(i) Buildings at Power Station	11,500
(ii) Transmission Line and Line work	12,200
(iii) Buildings at Kolar	4,800
(iv) Government share of erection and maintenance	7,000
(v) Special establishment	5,000
(vi) Tools and plant	1,700
Total excess expenditure on items enumerated ...	42,200

6. The following brief abstract will perhaps serve to facilitate comparison between former and present estimates :—

Heads of expenditure.	Estimated cost.		Differences.
	Original estimate.	Present estimate.	
	£	£	£
Cost of the whole plant free in Indian ports ...	187,677	181,003	—6,674
Total Expenditure in India ...	99,714	148,598	+48,884
Total ...	287,390	329,601	+42,211

7. I would venture to submit for consideration, in view of the very large apparent excess, the desirability of meeting the cost of certain items included in the present estimate from "Revenue" during the first year's working. This proposition would appear equitable, inasmuch as by far the greater part of the total amount, would be expended during that period.

The items referred to with estimated cost, are as follows :—

		£
I.	Maintenance of the whole plant (as distinct from erection) ...	14,000
II.	Maintenance of dams, channels and buildings	900
III.	Purchase of contractor's tools	500
IV.	Accommodation for operators	1,000
V.	Branch Telephone line	800
VI.	Special establishment	5,000
	Total ...	22,200

8. This if approved, would bring the total estimated cost of the project to £ 329,601—22,200=£ 307,401 or say £ 307,400, the net excess being £ 20,000, or about 7 per cent increase on the figures as originally computed.

No. 170-3—792-5, dated Bangalore, 10th February 1902.

Order thereon.—Under the circumstances explained in the above, Government are pleased to sanction the revised estimates submitted with the note read above, for £ 329,601, or Rs. 49,44,011 in Indian Currency at Rs. 15 per £. Of this amount, £ 307,401 or Rs. 46,11,011 will be charged to Capital, and the balance, £ 22,200 or Rs. 3,33,000 to Revenue.

2. For the purposes of allocation, the above amount is classified as follows :—

English Expenditure ... ... £181,003 or Rs. 27,15,045
Indian Expenditure ... ... £148,598 or Rs. 22,28,966

Note, dated 23rd September 1901, by Mr. W. McHutchin, Officiating Secretary to Government, Public Works Department, submitting the accompanying Memo, dated 20th September 1901, by Captain A. J. deLotbiniere, R.E., Deputy Chief Engineer of Mysore.

Regarding the question of sending two or three of our brightest young men to America to undergo a practical course in electricity at the shops of the General Electric Company at Schenectady, U. S. A.

The General Electric Company write "We will be willing to take two or three of these young men and will pay them regular students' pay, which for the first six months is 12½ cents per hour (*i. e.* approximately 6¼ annas,) and provided satisfactory work is done, this rate is increased at the end of each six months by 2½ cents per hour (approximately 1¼ annas). The regular week's work now consists of 54 hours.

The average length of time spent by students in the Testing Department is 1½ years.

If natives of India are sent, I recommend that graduates of some of the Indian Technical Schools be selected and that they be sent at once to remain about 2 years with us."

I enclose copy of the * letter from which I extract the above.

Financial Prospects.

1st 6 months a student receives 6¼ annas per hour, and works 54 hours a week, he therefore gets for one month:

$54 \times 6\frac{1}{4} \times 4/16$=Rs. 84-6-0 (for 30 days about Rs. 90-8-0 per month).

2nd 6 months:

$54 \times 7\frac{1}{2} \times 4/16$=Rs. 101 (for 30 days about Rs. 108-12-0).

3rd 6 months:=Rs. 118 (for 30 days about Rs. 126-14-0).

4th 6 months:=Rs. 135 (for 30 days about Rs. 145-0-0).

or in dollars: $.

1st 6 months=28
2nd 6 months=34
3rd 6 months=40
4th 6 months=46
} approximately.

Good board and lodging for workmen can be got for $ 1·50 per day or $ 45·00 per month. Say we allow the students another dollar per day for clothes and incidental necessities. This

means a student should have $ 45^{00} + \$ 31^{00} = \$ 76$ per month. Then taking $ 76^{0}$ per month, as the standard, we must allow each student for the

		$.
1st	6 months	76—28=48
2nd	do	76—34=42
3rd	do	76—40=36
4th	do	76—46=30

Therefore total cost of keeping a student for 2 years will be:

$.
48×6=288
42×6=252
36×6=216
30×6=180
Total.... 936

To this add for passage to America 2nd class and rail fares £ 70 return same £70.

Allowance for outfit of warm clothing and one month in England £70.

The total cost then of sending a student from Mysore to Schenectady and keeping him there for two years, fitting him out, and passages both ways will be at $ 4·86 per £1.

Pay $ 936=£192 say	£200
Passage to and from Schenectady	£140
Allowance for kit, etc.	£70
Total	£410

As the General Electric Company pay wages, the cost (in a D. O. in which the cost was given as about £700) is considerably less than I originally anticipated. Apart from the two years in the shops, our youngmen, if efficient, will have to travel about to various transmission works, assist in erecting plant and in operating the machinery. This will occupy two years more and is an absolutely essential part of their training During these two years the men will get sufficient pay to keep themselves well, if they prove themselves worthy of trust; so Government need not spend any money during that period.

If they cannot get enough pay to keep themselves, they will be useless for us.

If Government decides to send three youngmen, care must be exercised in their selection and also it must be firmly impressed on the students that the fact of their having had a course at Schenectady and out in the States will not in itself entitle them to a high post in the C. P. S.

Appointments will be made by merit, and four years' time is little enough in which to learn their work; therefore they will have to work hard and earnestly, to be of any value on their return.

I would again repeat that a man's prospects will entirely depend on himself and personally I would not think of appointing a man as "Operator" solely because he had been to America for four years. I would first make certain that he had not wasted his time, but had fully qualified himself for the post before putting him into it."

**Letter dated 7th June 1901, from the General Electric Company, to Axel Ekstrom, Esquire, Chief Electrical Engineer, Cauvery Power Scheme, Bangalore, India.*

"I have your favour of April 23rd regarding the desirability of educating natives to handle the plant after the year of maintenance has expired. I note that the Dewan is considering sending two or three young natives to America to receive training in Electrical Work, with the object of eventually placing them in subordinate positions in connection with the Cauvery plant. We will be willing to take two or three of these youngmen and will pay them regular students' pay which, for the first six months is 12½ cts. per hour, and provided satisfactory work is done, this rate is increased at the end of each six months by 2½ cts. per hour. The regular weeks' work now consists of 54 hours. The average length of time spent by students in the Testing Department is about 1½ years. If natives of India are sent, I recommend that graduates of some of the Indian Technical Schools be selected and that they be sent here at once to remain about two years with us. I do not consider that anything will be gained by their spending more than two years in our shops.

I have supposed all along that the Government would wish to retain in their employ some of the men whom we have sent to India as your assistants. We will not object to the Government taking into their employ any of these men after the period of maintenance has elapsed, it being understood that we accept no responsibility for them or their work, the details of their employment to be arranged between the Government and the men. When we send men on foreign installation work, the purchasers of the apparatus often make them satisfactory offers to remain in their employ, and for various reasons it is usually to our interest to allow the men to remain."

No. 213-219—1132-1138, DATED BANGALORE, 27TH FEBRUARY 1902.

ORDER THEREON.—The Government have been pleased to sanction the above proposal, and the marginally noted students being selected to go to America on the terms laid down in the above note.

1. Mr. H. D. Rice, (Asst. Engr. of D. P. W.)
2. Mr. S. D. Sheshadri Iyengar.
3. Mr. B. Dwarkanath Iyengar.
4. Mr. C. M. Cariapa.

2. The draft agreements to be signed by the students are also approved, *vide* copies annexed A and B.

3. The London Bankers will arrange to remit each month to the Manager, Foreign Department, General Electric Company, Schenectady, the Mysore State's contribution on behalf of the students, *vide* letters annexed C. and D.

4. The Government further direct that all charges in connection with these students, except the pay of Mr. H. D. Rice, Assistant Engineer, be debited to the Education budget, and the Inspector General of Education will be good enough to make the necessary provision therefor in his budget.

FROM

P. N. KRISHNA MURTHI, ESQUIRE, B.L., C.I.E.,
Dewan of Mysore.

To

MESSRS. COUTTS & Co.,
Strand, London.

GENTLEMEN,

I am sending four young men from Mysore namely:

1. Mr. H. D. Rice.
2. Mr. S. D. Sheshadri Iyengar.
3. Mr. B. Dwarkanath.
4. Mr. C. M. Cariapa.

to study electricity in the United States, in the shops of the General Electric Company of Schenectady.

2. These young men will be students of the General Electric Company and all four will be paid at the following rates per hour by that Company for work done in its shops:

1st six months 12½ cents per hour, and, provided satisfactory work is done, this rate is increased at the end of each six months by 2½ cents per hour.

3. I have decided that these students shall have a clear $ 76 per month, on which to live while in America (this does not apply to Mr. Rice whose case is dealt with in para 7) for students Nos. 2, 3 and 4. The State will therefore have to contribute at the following rates:—

	G. E. Co.'s pay.	Mysore contribution.	Total.
	$	$	$
1st 6 months	28	48	76
2nd 6 months	34	42	76
3rd 6 months	40	36	76
4th 6 months	46	20	76

(Note:—Students work 54 hours per week.)

4. I shall be much obliged if you will arrange to send monthly the Mysore State's contribution for these students to the Manager, Foreign Department, General Electric Company, who will be asked to hand over this contribution to the students on pay days.

5. I enclose copy of Chief Engineer's letter to the Manager, Foreign Department, General Electric Company, for your information. Please carefully note para 1 of this letter regarding advances to be made to students in case of emergency by General Electric Company.

6. The Government of Mysore's contribution will commence from the date on which the students report at your Office in London.

7. I am also sending a Public Works Engineer, Mr. H. D. Rice (No. 1 on the list) on the same terms of pay as far as the General Electric Company is concerned, but as regards Mysore contribution (to be paid monthly by you) he will get his ordinary Public Works Department pay, which at present amounts to Rs. 200; this should be paid him at 1S. 6d. per rupee or £ 15 per month.

8. As Mr. Rice gets promotion in this Department you will be notified.

I have the honor to be,

GENTLEMEN,

Your most obedient servant,

P. N. KRISHNA MURTHI,

Dewan of Mysore.

Schenectady U. S. A.

SIR,

The Government of Mysore has decided to send four young men as students to your Company. I enclose extract of a letter forwarded me by Mr. Ekstrom, also copy of your cable to the Dewan of Mysore, dated 14th February 1902, from which you will see that the General Electric Company has agreed to allow these young men regular students' pay.

2. I also enclose copy of a letter to Messrs. Coutts & Co., Bankers, London, regarding the contribution that the Mysore Government proposes to pay towards the maintenance of these students while in America. I trust it will be no inconvenience for you to assist us in the matter of handing over monthly the Mysore Government contribution to the students on pay days. Also, in the event of any emergency arising, such as illness or necessity of returning to India owing to illness, or to enable a student to meet the doctor's bill, I will be greatly obliged if you will kindly advance such an amount to the student as you may consider necessary in order to enable him to meet the difficulty, up to a sum of $ 500 (five hundred dollars) in the case of any one student. Messrs. Coutts & Co., will at once refund you the advance.

3. I expect the men will reach you about the 22nd May next.

4. Regarding the time these young men will remain with you, and their movements in America before their return to Mysore in order to qualify them as fair practical and theoretical electricians, I expect that Captain Joly deLotbiniere will visit your works about October next; he will then discuss the matter with you and arrange any points which may require settlement on behalf of this Government.

The names of the selected students are—

1. Mr. H. D. Rice.
2. Mr. S. D. Sheshadri Iyengar.
3. Mr. B. Dwarkanath.
4. Mr. C. M. Cariapa.

I remain

SIR,

Yours faithfully,

D. McNEIL CAMPBELL, COLONEL.,

Chief Engineer of Mysore.

Exd.—J. T. R.
